§ 2

Interest, Additional Amount

- (1) *Interest*: The Securities do not bear interest.
- (2) *Additional Unconditional Amount*: The respective Additional Unconditional Amount (I) will be paid on the respective Additional Unconditional Amount Payment Date (I) pursuant to the provisions of § 6 of the Special Conditions.

§ 3

- Payment of the Redemption Amount shall be made on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.
- (2) *Automatic Early Redemption (k):* If, with respect to an Early Redemption Observation Date (k), an Early Redemption Event (k) has occurred, the Securities will be automatically early redeemed on the immediately following Early Payment Date (k) by payment of the respective Early Redemption Amount (k) on the respective Early Payment Date (k) pursuant to the provisions of § 6 of the Special Conditions.

§ 5

Issuer's Extraordinary Call Right

Issuer's extraordinary call right: Upon the occurrence of a Call Event the Issuer may call the Securities extraordinarily by giving notice pursuant to § 6 of the General Conditions and redeem the Securities at their Cancellation Amount. Such call shall become effective at the time indicated in the notice.

The "**Cancellation Amount**" shall be the fair market value of the Securities as of the tenth Banking Day before the extraordinary call becomes effective, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith under then prevailing circumstances.

The determination of the fair market value is based on the economic equivalent of the Issuer's payment obligations to the Security Holders consistent with the provisions for the redemption profile, interest or other additional amounts of the Securities that would otherwise be due after the day on which the extraordinary call becomes effective and which is adjusted for taking into consideration the following parameters as of the tenth Banking Day before the extraordinary call becomes effective: the price of the Basket Components, the remaining time to maturity, the estimated volatility, the expected dividends (if applicable), the current market interest rate as well as the interest spread associated with the credit default risk of the Issuer and any other relevant market parameter that can influence the value of the Securities.

The Cancellation Amount will be paid within five Banking Days following the date as of which the extraordinary call becomes effective, or at the date specified in the above mentioned notice, as the case may be, pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking

Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.

- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price_i required for the calculations or, respectively, specifications described in these Terms and Conditions. Such Reference Price_i shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives of the respective Basket Component_i expire and are settled on the respective Determining Futures Exchange_i, the settlement price established by the respective Determining Futures Exchange_i for the there traded Underlying Linked Derivatives of the respective Basket Component_i will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives of the respective Basket Component_i is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Reversal of Adjustment, Notifications

- (1) *Adjustments:* If, with respect to a Basket Component_i, an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the respective Determining Futures Exchange_i regarding the respective Underlying Linked Derivatives of the respective Basket Component_i. The Calculation Agent is, however, also authorised to make an Adjustment if there is no adjustment

made to the respective Underlying Linked Derivatives of the respective Basket Component_i by the respective Determining Futures Exchange_i. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the respective Determining Futures Exchange_i with respect to the respective Underlying Linked Derivatives of the respective Basket Component_i.

(b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the adjustments made by the respective Determining Futures Exchange_i in order to take into account the Adjustment Goal in an appropriate manner:

- (i) The Adjustment envisaged by the respective Determining Futures Exchange_i regarding the respective Underlying Linked Derivatives of the respective Basket Component_i is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (ii) The adjustment envisaged by the respective Determining Futures Exchange_i regarding the respective Underlying Linked Derivatives of the respective Basket Component_i is unreasonable for Security Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (iii) The adjustment envisaged by the respective Determining Futures Exchange_i regarding the respective Underlying Linked Derivatives of the respective Basket Component_i is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

(2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:

(a) *Adjustment of the Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the respective Basket Component_i or a third party, that impacts the computed value of the respective Basket Component_i not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).

(b) *Replacement of the Basket Component:* In case of a take-over or a merger or similar measure with respect to the respective Basket Component_i the Calculation Agent can replace the respective Basket Component_i with the share of the successor of the issuer of the original respective Basket Component_i or with another share of – inter alia – comparable liquidity and industry affiliation as the original respective Basket Component_i (the "**Replacement Basket Component**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Basket Component.

In case of a split or a similar measure with respect to the respective Basket Component_i the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Basket Component. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the respective Determining Futures Exchange_i, the share with the highest market capitalisation or another share from the basket of shares determined by the respective Determining Futures Exchange_i with – inter alia – comparable liquidity and industry affiliation as the original Basket Component_i to be the Replacement Basket Component. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.

If the Calculation Agent designates a Replacement Basket Component, from the Adjustment Date on (as defined in paragraph (5) below), every reference to the respective Basket Component_i in these Terms and Conditions shall be a reference to the Replacement Basket Component, unless the context requires otherwise.

(3) *Replacement Specification:* If a published price of a Basket Component_i as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be

published by the respective Relevant Exchange_i after the original publication, but still within one Settlement Cycle_i, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.

- (4) *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.
- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the impact of current macroeconomic uncertainties and the effects of the geopolitical tensions: The market environment in which UniCredit operates continues to be affected by high levels of uncertainty for both the short and the medium-term outlook. The economic consequences stemming from the geopolitical tensions, not only in Russia, pushed up inflationary pressures and could continue to unfold increasing uncertainty for the Euro area economy, with potential impact on the performance of the Group. The Russia-Ukraine crisis caused a sharp rise in commodities prices, further global supply-chain disruption, a tightening of financial conditions, heightened uncertainty, and a sharp drop in consumer confidence. From mid 2022, with inflation building up due to the increase in energy price and the supply disruptions, ECB changed its monetary stance (Deposit Facility rate: -50 bps in June 2022, 0 bps in July, 75 bps in September, 150 bps in October, 200 bps in December, 250 bps in February 2023, 300 bps in March, 325 bps in May, 350 bps in June, 375 bps in July, 400 bps in September) and market repriced interest rate expectations accordingly. Despite subsequently inflation started to record a declining path, and ECB started to revert monetary policy (DFR lowered to 375 bps in June 2024) that still is restrictive, the outlook is still surrounded by risks, further tensions on commodity/energy prices cannot be excluded as well as an upsurge in the ongoing Russia-Ukraine conflict and / or an intensification of the tensions in the Middle East. Therefore, the expectations regarding the performance of the global economy remains still uncertain in both the short and medium term. The current environment, characterized by highly uncertain elements as above mentioned could generate a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. On 9 December 2021 UniCredit presented to the financial community the 2022-2024 Strategic Plan, which included a set of strategic and financial objectives that considered the underlying scenario and resulted from the assessment performed at that time. The macro assumptions underlying the Strategic Plan excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurge of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years).

Risks connected with the Strategic Plan 2022 – 2024: On 9th December 2021, UniCredit presented to the financial community in Milan the 2022-2024 Strategic Plan called "UniCredit Unlocked" (the "**Strategic Plan**" or "**Plan**") which contains a number of strategic, capital and financial objectives (the "**Strategic Objectives**"). The Strategic Plan focuses on UniCredit's geographic areas in which the Issuer currently operates; with financial performance driven by three interconnected levers: cost efficiency, optimal capital allocation and net revenue growth. "UniCredit Unlocked" delivers strategic imperatives and financial ambitions based on six pillars. Such strategic imperatives and financial ambitions regard: (i) the growth in its regions and the development of its client franchise, changing its business model and how its people operate; (ii) the delivery of economies of scale from its footprint of banks, transforming the technology, leveraging Digital & Data and embedding sustainability in all that UniCredit does; (iii) driving financial performance via three interconnected levers. The macro assumptions underlying the Strategic Plan disclosed in December 2021 excluded unexpected materially adverse developments such as the Russia-Ukraine conflict and worsening/resurge of the COVID-19 pandemic, situations that UniCredit has been monitoring closely (From Strategic Plan presentation: Macro assumptions in the Strategic Plan consider the recent and existing impacts of COVID-19 at the time of the Plan presentation with a gradual normalization over the subsequent years. The scenario did not assume that the COVID-19 situation at that time would develop in a particularly negative way in the subsequent years). The Plan is based on six pillars: (i) optimise, through the improvement of operational and capital efficiency; (ii) invest, with targeted growth initiatives, including ESG; (iii) grow net revenues; (iv) increase return; (v) strengthen solidity thanks to revised CET1 ratio target and decrease of Gross NPE ratio; and (vi) distribute consistently with organic capital generation. On 24th July 2024 UniCredit presented Group results for 2Q24 as well as the update of the guidance for 2024 with no changes in overall strategy but with improved financial targets. UniCredit's ability to meet the Strategic Objectives and all forward-looking statements relies on a number of assumptions, expectations, projections and provisional data concerning future events and is hence subject to a number of uncertainties and additional factors, many of which are outside the control of UniCredit. For all these reasons, investors are cautioned against making their investment decisions based exclusively on the forecast data included in the Strategic Objectives (and latest updated guidance).

Credit risk and risk of credit quality deterioration: The activity, financial and capital strength and profitability of the UniCredit Group depend, among other things, on the creditworthiness of its customers. In carrying out its credit activities, the Group is exposed to the risk that an unexpected change in

the creditworthiness of a counterparty may generate a corresponding change in the value of the associated credit exposure and give rise to the partial or total write-down thereof. The current environment continues to be characterised by highly uncertain elements, with the possibility that the slowdown of the economy, jointly with the termination of the safeguard measures, such as the customer loans moratorium, generates a worsening of the loan portfolio quality, followed by an increase of the non-performing loans and the necessity to increase the provisions to be charged to the income statement. UniCredit's Loan Loss Provisions ("LLPs") increased by 7.7 per cent 1H/1H to Euro 118 million in 1H24. The cost of risk was broadly in line 1H/1H to 5 bps in 1H24. The Group maintained the amount of overlays on performing exposures at circa Euro 1.7 billion, which substantially reinforces the Group's capacity to withstand macroeconomic shocks. As at 30 June 2024, Group gross NPEs were down by 3.6 per cent Y/Y and by 3.4 per cent Q/Q to Euro 11.7 billion in Q24 (while as at 30 March 2024 they were equal to Euro 12.1 billion) with gross NPE ratio of 2.6 per cent (flat Y/Y and -0.1 per cent Q/Q). As at 30 June 2024, Group Net NPEs stood at Euro 6.2 billion decreased compared to 31 March 2024 which attested at Euro 6.6 billion (Group Net NPE ratio decreased compared to 31 March 2024 and is equal to 1.4 per cent). The Group has adopted procedures, rules and principles aimed at monitoring and managing credit risk at both individual counterparty and portfolio level. However, there is the risk that, despite these credit risk monitoring and management activities, the Group's credit exposure may exceed predetermined risk's levels pursuant to the procedures, rules and principles it has adopted.

Liquidity Risk: Liquidity risk refers to the possibility that the UniCredit Group may find itself unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The activity of the UniCredit Group is subject in particular to funding liquidity risk, market liquidity risk, mismatch risk and contingency risk. The most relevant risks that the Group may face are: i) an exceptionally high usage of the committed and uncommitted lines granted to corporate customers; ii) an unusual withdrawal of sight and term deposits by UniCredit's retail and corporate customers; iii) the decline in the market value of the securities in which UniCredit invests its liquidity buffer; iv) the capacity to roll over the expiring wholesale funding and the potential cash or collateral outflows the Group may suffer in case of rating downgrades of both the banks or the sovereign debt in the geographies in which it operates. In addition to this, some risks may arise from the limitations applied to the cross-border lending among banks. Due to the financial market crisis, followed also by the reduced liquidity available to operators in the sector, the ECB has implemented important interventions in monetary policy, such as the "Targeted Longer-Term Refinancing Operation" ("TLTRO") introduced in 2014 and the TLTRO II introduced in 2016. This liquidity support has approached its maturity in the first quarter of 2024. The repayment of TLTRO has been mostly performed reducing the excess of cash reserves placed at the Central Banks and partially increasing the net repo position. This resulted in a higher reliance in the wholesale sources of funding, whose cost is typically higher compared to the TLTRO and its existence more dependant from market conditions. Such a situation could therefore adversely affect UniCredit's business, operating results and the economic and financial position of UniCredit and/or the Group. The main indicators used by the UniCredit Group to assess its liquidity profile are (i) the Liquidity Coverage Ratio (LCR), which represents an indicator of short-term liquidity subject to a minimum regulatory requirement of 100 per cent from 2018 and which was equal to 149 per cent in March 2024, whereas at 31 December 2023 was equal to 154 per cent (calculated as the average of the 12 latest end of month ratios), and (ii) the Net Stable Funding Ratio (NSFR), which represents the indicator of structural liquidity and which in March 2024 was 129 per cent.

Basel III and Bank Capital Adequacy: The Issuer shall comply with the revised global regulatory standards (Basel III) on bank capital adequacy and liquidity, which impose requirements for, inter alia, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. In terms of banking prudential regulations, the Issuer is also subject to the Bank Recovery and Resolution Directive 2014/59/EU of 15 May 2014 (BRRD), implemented in Italy with the Legislative Decree. 180 and 181 of 16 November 2015 as amended by Directive (EU) 2019/879, the "BRRD II" (implemented in Italy by the Legislative Decree No. 193 of November 8, 2021), as well as the relevant technical standards and guidelines from EU regulatory bodies (i.e. the European Banking Authority (EBA)), which, inter alia, provide for recovery and resolution mechanisms and Minimum Requirement for Own Funds and Eligible Liabilities (MREL) for credit institutions. Should UniCredit not be able to meet the capital/MREL requirements imposed by the applicable laws and regulations, it may be required to maintain higher levels of capital/eligible liabilities which could potentially impact its credit ratings, and funding conditions and which could limit UniCredit's growth opportunities.

Section 3 – Key information on the Securities

What are the main features of the Securities?

Product Type, Underlying and form of the Securities

Product Type: Express Securities with Multi-Underlying (with Cash Settlement) (with Additional Unconditional Amount (I)) (Quanto Securities)

Underlying: The Underlying is a basket consisting of the following shares as Basket Component_i:

i	Basket Component _i	Reference Price _i
1	JPMorgan Chase (ISIN US46625H1005)	Closing price
2	National Grid PLC (ISIN GB00BDR05C01)	Closing price
3	Novartis AG (ISIN CH0012005267)	Closing price

The Securities are governed by Italian law. The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Law on Financial Intermediation (*Testo Unico della Finanza*). The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The international securities identification number (ISIN) of the Securities is set out in Section 1.

Issuance and Term

The Securities will be issued on 31 October 2024 in Euro (EUR) (the "Specified Currency") as up to 25,000 Certificates. The Securities have a defined term.

General

The value of the Securities during their term depends mainly on the price of the Basket Component_i with the worst (lowest) performance. In general, if the price of the Basket Component_i with the worst performance rises, the value of the Securities rises. In general, if the price of the Basket Component_i with the worst performance falls, the value of the Securities falls.

Interest

The Securities do not bear interest.

Redemption

Automatic Early Redemption

Provided that no Call Event has occurred, the Securities allow for an automatic early redemption at the respective Early Redemption Amount (k) on the respective Early Payment Date (k), if an Early Redemption Event (k) has occurred.

An Early Redemption Event (k) occurs, if the Worst Performance (k) on an Early Redemption Observation Date (k) is equal to or greater than the Early Redemption Level (k).

Worst Performance (k) means with respect to the respective Early Redemption Observation Date (k), the performance of the Basket Component_i with the worst (lowest) performance. With respect to the respective Early Redemption Observation Date (k), the performance of each Basket Component_i is calculated by the Calculation Agent as $K_i(k)$ divided by K_i (initial).

$K_i(k)$ means the Reference Price_i of the Basket Component_i on the relevant Early Redemption Observation Date (k).

Early Redemption Observation Date (k):	23 October 2026 (1), 23 April 2027 (2), 22 October 2027 (3), 21 April 2028 (4)
Early Redemption Level (k):	100% (1), 95% (2), 90% (3), 85% (4)

Redemption as at the Final Payment Date

Provided that no Call Event and no Early Redemption Event (k) has occurred, the Securities will be redeemed on the Final Payment Date by payment of the Redemption Amount as follows:

- If no Barrier Event has occurred, the Redemption Amount corresponds to the Maximum Amount.
- If a Barrier Event has occurred, the Redemption Amount corresponds to the Calculation Amount multiplied by the Worst Performance (final) and divided by the Strike Level. The Redemption Amount will not be greater than the Calculation Amount.

Worst Performance (final) means with respect to the Final Observation Date, the performance of the Basket Component_i with the worst (lowest) performance. With respect to the Final Observation Date, the performance of each Basket Component_i is calculated by the Calculation Agent as K_i (final) divided by K_i (initial).

Additional definitions and product terms

A Barrier Event occurs if the Worst Performance (final) is lower than the Barrier Level on the Final Observation Date.

K_i (final) means the Reference Price_i of the Basket Component_i on the Final Observation Date.

K_i (initial) means the Reference Price_i of the Basket Component_i on the Initial Observation Date.

Barrier Level:	60%
Calculation Amount:	EUR 1,000.00
Final Observation Date:	24 October 2028
Final Payment Date:	31 October 2028
Initial Observation Date:	30 October 2024
Maximum Amount:	EUR 1,000.00
Strike Level:	100%

Extraordinary termination right: Upon the occurrence of one or more call events (for example, if price quotation of a Basket Component on the relevant exchange is finally ceased) (the "**Call Event**") the Issuer may call the Securities extraordinarily and redeem the Securities at their Cancellation Amount. The "**Cancellation Amount**" is their fair market value.

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities if an adjustment event (for example, each measure taken by the company that has issued a Basket Component or by a third party which, as a result of a change in the legal and financial position, affects the respective Basket Component) (the "**Adjustment Event**") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 7 November 2024 on the following multilateral trading facilities (MTF): EuroTLX managed by Borsa Italiana S.p.A. ("**EuroTLX**")

UniCredit Bank GmbH (the "**Market Maker**") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency.

The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The market value of the Securities will be affected by a number of factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Basket Component-related market value-influencing factors. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Basket Components.

Risks related to the Redemption Amount: The Redemption Amount may be less than the Issue Price or the purchase price or even be zero. A participation in a favourable performance of the Basket Components beyond the Maximum Amount is excluded. **A total loss is possible.**

Risks related to a Barrier Event: If a Barrier Event occurs, a more advantageous pay-out formula will be disappplied. In any case the Security Holder may lose his invested capital in total or in part.

Risks related to an Automatic Early Redemption: If an Early Redemption Event occurs, the Security Holder will neither participate in any future favourable performance of the Basket Components nor be entitled to further payments under the Securities after an early redemption. In addition, the Security Holders are exposed to the risk that they may only reinvest the principal received due to an early repayment of the Securities to less favourable conditions.

Risks related to the Worst-of Element: Any amounts to be distributed under the Securities, are determined by reference to the price or the performance of the Basket Component with the Worst Performance only. Thus, the Security Holder faces the risk of losses due to the performance of the Basket Component with the Worst Performance, even if some or all other Basket Components perform more favourably.

Risks related to shares: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Basket Components. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Liquidity risk: There is a risk that the Securities may not be widely distributed and no active trading market may exist and may develop for the Securities. The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities. The Issuer cannot therefore assure that a Security Holder will be able to sell his Securities at an adequate price prior to their redemption.

Quali sono i principali rischi specifici dell'Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell'Emittente:

Rischi connessi all'impatto delle attuali incertezze del contesto macroeconomico e alle conseguenze derivanti dalle tensioni geopolitiche: Il contesto di mercato in cui UniCredit opera continua a essere influenzato da elevati livelli di incertezza sia sulle previsioni a breve che a medio termine. Le conseguenze economiche derivanti dalle tensioni geopolitiche, non solo in Russia, hanno provocato un aumento delle pressioni inflazionistiche e possono continuare a generare crescente incertezza per l'economia dell'area Euro, con possibili ripercussioni sull'andamento del Gruppo. La crisi tra Russia e Ucraina ha causato un forte aumento dei prezzi delle materie prime, un'ulteriore interruzione della catena di approvvigionamento globale, un inasprimento delle condizioni finanziarie, un aumento dell'incertezza e un forte calo della fiducia dei consumatori. A partire dalla metà del 2022, con l'aumento dell'inflazione dovuto all'incremento dei prezzi dell'energia e alle interruzioni delle forniture, la BCE ha modificato il proprio orientamento monetario (*Deposit Facility Rate*: -50 pb a giugno 2022, 0 pb a luglio, 75 pb a settembre, 150 pb a ottobre, 200 pb a dicembre, 250 pb a febbraio 2023, 300 pb a marzo, 325 pb a maggio, 350 pb a giugno, 375 pb a luglio, 400 pb a settembre) e il mercato ha rivalutato di conseguenza le aspettative sui tassi di interesse. Nonostante successivamente l'inflazione abbia iniziato a diminuire, e la BCE abbia iniziato a invertire la politica monetaria (DFR ridotto a 375 pb a giugno 2024) che ancora resta restrittiva, le prospettive sono ancora circondate da rischi, non si possono escludere ulteriori tensioni in relazione ai prezzi delle materie prime e dell'energia, alla recrudescenza del conflitto in corso tra Russia e Ucraina e/o una intensificazione delle tensioni in Medio Oriente. Pertanto, le aspettative sull'andamento dell'economia globale rimangono ancora incerte sia nel breve che nel medio termine. Il quadro attuale, caratterizzato da elementi di elevata incertezza come sopra menzionati potrebbe determinare un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dell'incidenza dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscrivere a conto economico. Il 9 dicembre 2021 UniCredit ha presentato alla comunità finanziaria il Piano Strategico 2022-2024, che ha incluso una serie di obiettivi strategici e finanziari che hanno preso in considerazione lo scenario sottostante e hanno rappresentato i risultati delle valutazioni effettuate alla data. Gli assunti macroeconomici sottostanti il Piano Strategico non consideravano sviluppi particolarmente negativi come il peggioramento/ritorno della pandemia da COVID-19 e il conflitto Russia-Ucraina, situazioni che UniCredit ha monitorato con grande attenzione (dalla presentazione del Piano Strategico: gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e i presenti impatti del COVID-19 al momento della presentazione del Piano, in progressiva normalizzazione nel corso dei successivi anni. Lo scenario non ha ipotizzato che la situazione del COVID-19 in quel momento si sviluppasse nei successivi anni in maniera particolarmente negativa).

Rischi connessi al Piano Strategico 2022 – 2024: In data 9 dicembre 2021, UniCredit ha presentato alla comunità finanziaria a Milano il Piano Strategico 2022-2024 denominato "UniCredit Unlocked" (il "**Piano Strategico**" o "**Piano**") che contiene una serie di obiettivi strategici, patrimoniali e finanziari (gli "**Obiettivi Strategici**"). Il Piano Strategico ha ad oggetto le aree geografiche di UniCredit in cui l'Emittente al momento opera, con performance finanziaria guidata da tre leve interconnesse: efficienza dei costi, ottima allocazione del capitale e aumenti dei ricavi netti. "UniCredit Unlocked" persegue imperativi strategici e obiettivi finanziari basati su sei pilastri. Tali imperativi strategici e obiettivi finanziari riguardano: (i) la crescita nelle proprie aree geografiche e lo sviluppo della rete di clienti, trasformando il modello di business e il modo in cui i suoi dipendenti operano; (ii) il conseguimento di economie di scala dalla propria rete di banche, attraverso una trasformazione tecnologica, incentrata su Digital & Data e integrando la sostenibilità in tutte le azioni di UniCredit; (iii) la guida della performance finanziaria tramite tre leve interconnesse. Gli assunti macroeconomici sottesi al Piano Strategico comunicato a Dicembre 2021 non consideravano sviluppi particolarmente negativi come il conflitto Russia-Ucraina e il peggioramento/ritorno della pandemia da COVID-19, situazioni che UniCredit ha monitorato con grande attenzione (dalla presentazione del Piano

Strategico: gli assunti macroeconomici contenuti nel Piano Strategico considerano i recenti e i presenti impatti del COVID-19 al momento della presentazione del Piano, in progressiva normalizzazione nel corso dei successivi anni. Lo scenario non ha ipotizzato che la situazione del COVID-19 in quel momento si sviluppasse nei successivi anni in maniera particolarmente negativa). Il Piano è basato su sei pilastri: (i) l'ottimizzazione, attraverso il miglioramento dell'efficienza operativa e del capitale; (ii) gli investimenti, con iniziative mirate, anche in ambito ESG; (iii) la crescita dei ricavi netti; (iv) l'aumento del rendimento; (v) il rafforzamento della solidità grazie alla revisione del target del coefficiente patrimoniale CET1 e del miglioramento del rapporto tra esposizioni deteriorate lorde e totale dei crediti lordi; e (vi) la distribuzione in linea con la generazione organica di capitale. Il 24 luglio 2024 UniCredit ha presentato i risultati del Gruppo per il 2° trimestre 2024 e ha aggiornato le linee guida per il 2024 senza modificare la strategia complessiva ma migliorando gli obiettivi finanziari. La capacità di UniCredit di raggiungere gli Obiettivi Strategici e tutte le dichiarazioni previsionali si basano su una serie di ipotesi, aspettative, proiezioni e dati provvisori riguardanti eventi futuri e sono pertanto soggette a una serie di incertezze e ulteriori fattori, molti dei quali sono al di fuori del controllo di UniCredit. Per le sopra esposte ragioni, gli investitori sono invitati a non fondare le proprie scelte di investimento esclusivamente sulle previsioni incluse tra gli Obiettivi Strategici (e le più recenti linee guida).

Rischio di credito e di deterioramento della qualità del credito: L'attività, la solidità patrimoniale e finanziaria e la profittabilità del Gruppo UniCredit dipendono, tra l'altro, dal merito di credito dei propri clienti. Nello svolgimento della propria attività creditizia il Gruppo è esposto al rischio che un inatteso cambiamento del merito creditizio di una controparte possa generare un corrispondente cambiamento del valore dell'associata esposizione creditizia e dare luogo a cancellazione parziale o totale della stessa. Il quadro attuale continua ad essere caratterizzato da elementi di elevata incertezza, con la possibilità che il rallentamento dell'economia, congiuntamente alla conclusione di misure di salvaguardia, quali le moratorie sui crediti, determinino un deterioramento della qualità del portafoglio creditizio, con conseguente incremento dei crediti *non performing* e la necessità di aumentare le rettifiche di valore da iscrivere a conto economico. Le rettifiche su crediti di UniCredit ("**LLPs**") sono aumentate del 7,7 per cento 1sem/1sem attestandosi a Euro 118 milioni nel 1sem24. Il costo del rischio è stato sostanzialmente in linea 1sem/1sem attestandosi a 5 punti base nel 1sem24. Il Gruppo ha mantenuto gli overlay sulle esposizioni performing, pari a circa Euro 1,7 miliardi, che rafforzano notevolmente la capacità del Gruppo di far fronte agli shock macroeconomici. Al 30 Giugno 2024, l'NPE lordo di Gruppo era in calo del 3,6 per cento a/a e del 3,4 per cento trim/trim attestandosi a Euro 11,7 miliardi nel 2trim24 (mentre al 31 Marzo 2024 era pari a Euro 12,1 miliardi) con l'NPE ratio lordo pari al 2,6 per cento (invariato a/a e -0,1 per cento trim/trim). Al 30 giugno 2024, l'NPE netto di Gruppo si è attestato a Euro 6,2 miliardi, in calo rispetto al 31 Marzo 2024, quando si attestava a 6,6 miliardi (NPE ratio netto di Gruppo in calo rispetto al 31 marzo 2024 ed è pari all'1,4 per cento). Il Gruppo si è dotato di procedure e principi finalizzati al monitoraggio ed alla gestione del rischio di credito a livello di singole controparti e di portafoglio complessivo. Tuttavia, sussiste il rischio che, pur in presenza di attività di monitoraggio e gestione del rischio di credito, l'esposizione creditizia del Gruppo ecceda i livelli di rischio predeterminati ai sensi delle procedure, delle regole e dei principi adottati.

Rischio di liquidità: Il rischio di liquidità identifica l'eventualità che il Gruppo UniCredit possa trovarsi nella condizione di non riuscire a far fronte agli impegni di pagamento (per cassa o per consegna) attuali e futuri, previsti o imprevisi senza pregiudicare l'operatività quotidiana o la propria condizione finanziaria. L'attività del Gruppo UniCredit è soggetta in particolare al rischio di liquidità nelle sue forme di funding liquidity risk, market liquidity risk, mismatch risk e contingency risk. I rischi più rilevanti a cui il Gruppo è esposto sono: i) un uso eccezionalmente alto delle linee di credito revocabili ed irrevocabili da parte delle imprese; ii) un insolito ritiro di depositi a vista e vincolati da parte dei clienti UniCredit, siano essi persone fisiche o imprese; iii) un decremento del valore di mercato dei titoli in cui UniCredit investe il proprio *liquidity buffer*; iv) la capacità di rifinanziare il debito verso la clientela istituzionale in scadenza e le potenziali uscite di cassa o di garanzie che il gruppo dovrebbe fronteggiare in caso di declassamento delle banche o del debito sovrano nei Paesi in cui il Gruppo opera. Inoltre, alcuni rischi possono emergere anche dai limiti applicati ai prestiti tra banche appartenenti a Paesi diversi. A causa della crisi dei mercati finanziari, determinata anche dalla ridotta liquidità a disposizione degli operatori del settore, la BCE ha posto in essere importanti interventi di politica monetaria, come il programma di "Operazioni Mirate di Rifinanziamento a più Lungo Termine" ("Targeted Longer-Term Refinancing Operation" o "**TLTRO**") introdotto nel 2014 e il TLTRO II introdotto nel 2016. Tale supporto alla liquidità ha raggiunto la sua scadenza nel primo trimestre 2024. Il ripagamento del TLTRO è stato effettuato principalmente riducendo l'eccesso di riserva presso la Banca Centrale e parzialmente aumentando la posizione netta dei repo. Ciò ha determinato una maggiore dipendenza da fonti di provvista all'ingrosso, il cui costo è tipicamente più alto rispetto al TLTRO e la loro esistenza più dipendente dalle condizioni di mercato. La situazione descritta potrebbe quindi incidere negativamente sull'attività di UniCredit, sui risultati operativi e sulla situazione economica e finanziaria dell'Emittente e/o del Gruppo. I principali indicatori utilizzati dal Gruppo UniCredit per la valutazione del profilo di liquidità sono (i) il Liquidity Coverage Ratio (LCR) che rappresenta un indicatore di liquidità a breve termine soggetto ad un requisito minimo regolamentare pari al 100 per cento dal 2018 e che a marzo 2024 era pari a 149 per cento, mentre al 31 dicembre 2023 era pari a 154 per cento (calcolato come media delle ultime 12 osservazioni mensili dell'indicatore), e (ii) il Net Stable Funding Ratio (NSFR), che rappresenta l'indicatore di liquidità strutturale e che, a marzo 2024, è stato pari a 129 per cento.

Basilea III e Adeguatezza Patrimoniale delle Banche: L'Emittente è tenuto al rispetto degli standard globali di regolamentazione aggiornati (Basilea III) sull'adeguatezza patrimoniale e la liquidità delle banche, che impongono, inter alia, requisiti per un capitale più elevato e di migliore qualità, una migliore copertura dei rischi, misure volte a promuovere l'accumulo di capitale che può essere utilizzato in periodi di stress, e l'introduzione di un indice di leva finanziaria che funge da rete di protezione ai requisiti basati sui parametri di rischio, nonché due standard globali di liquidità. In materia di normativa prudenziale bancaria, l'Emittente è sottoposto anche alla Direttiva "Bank Recovery and Resolution Directive" 2014/59/UE del 15 maggio 2014 (BRRD), recepita in Italia con i D.Lgs. 180 e 181 del 16 novembre 2015 - come modificata dalla Direttiva (UE) 2019/879, la "**BRRD II**" (recepita in Italia dal D.Lgs. 8 novembre 2021, n. 193), nonché alle norme tecniche attinenti e alle linee guida emanate dagli organismi di regolamentazione dell'Unione (i.e. l'Autorità bancaria europea (EBA)) che prevedono, inter alia, meccanismi di risanamento e di risoluzione delle crisi e requisiti minimi di fondi propri e passività ammissibili (MREL) per gli enti creditizi. Qualora UniCredit non fosse in grado di rispettare i requisiti patrimoniali/MREL imposti dalla normativa applicabile, potrebbe essere tenuta a mantenere livelli di capitale più elevati/passività ammissibili che potrebbero avere un impatto potenziale sui rating e sulle condizioni di finanziamento e che potrebbero limitare le opportunità di crescita di UniCredit.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Tipologia di Prodotto, Sottostante e forma dei Titoli

Tipo di Prodotto: Titoli Express con Multi-Sottostante (*Express Securities with Multi-Underlying*) (con Liquidazione in Contanti) (con Importo Incondizionato Aggiuntivo (I)) (Titoli Quanto)

Sottostante: Il Sottostante è un paniere che è composto dalle seguenti azioni come Componenti del Paniere:

i	Componente del Paniere _i	Prezzo di Riferimento _i
1	JPMorgan Chase (ISIN US46625H1005)	Prezzo di chiusura
2	National Grid PLC (ISIN GB00BDR05C01)	Prezzo di chiusura
3	Novartis AG (ISIN CH0012005267)	Prezzo di chiusura

I Titoli sono regolati dalla legge italiana. I Titoli sono strumenti di debito in forma nominativa dematerializzata ai sensi del Testo Unico in materia di intermediazione finanziaria (*Testo Unico della Finanza*). I Titoli saranno rappresentati mediante scrittura contabile registrate sul sistema di contabilizzazione del Sistema di Compensazione (*Clearing System*). Il trasferimento dei Titoli avviene mediante registrazione sui relativi conti accessi presso il Sistema di Compensazione. Il codice internazionale di identificazione dei Titoli (*International Securities Identification Number* - ISIN) è indicato nella Sezione 1.

Emissione e Durata

I Titoli saranno emessi il 31/10/2024 in Euro (EUR) (la "Valuta Specifica") fino a 25.000 Certificati. I Titoli hanno una durata definita.

Generale

Il valore dei Titoli durante la loro vita dipende principalmente dal prezzo del Componente del Paniere, con la peggiore (più bassa) performance. Di regola, se il valore del Componente del Paniere, con la peggiore performance aumenta, il valore dei Titoli aumenta. Di regola, se il valore del Componente del Paniere, con la peggiore performance diminuisce, il valore dei Titoli diminuisce.

Interessi

I Titoli non maturano interessi.

A condizione che nessun Evento di Riscatto si sia verificato, i Titoli prevedono un rimborso anticipato automatico al relativo Importo di Rimborso Anticipato (k) alla rispettiva Data di Pagamento Anticipato (k), se sia verificato un Evento di Rimborso Anticipato (k).

Si verifica un Evento di Rimborso Anticipato (k), se la Performance Peggiore (k) ad una Data di Osservazione di Rimborso Anticipato (k) è pari o superiore al rispettivo Livello di Rimborso Anticipato (k).

Performance Peggiore (k) si intende, con riguardo alla rispettiva Data di Osservazione di Rimborso Anticipato (k), la performance del Componente del Paniere, con la peggiore (più bassa) performance. Con riguardo alla rispettiva Data di Osservazione di Rimborso Anticipato (k), la performance di ciascun Componente del Paniere, è calcolata dall'Agente di Calcolo come $K_i(k)$ divisa per K_i (iniziale).

$K_i(k)$ indica il Prezzo di Riferimento, del Componente del Paniere, alla rispettiva Data di Osservazione di Rimborso Anticipato (k).

Rimborso alla Data di Pagamento Finale

A condizione che nessun Evento di Riscatto e nessun Evento di Rimborso Anticipato (k) si sia verificato, i Titoli verranno rimborsati alla Data di Pagamento Finale con il pagamento dell'Importo di Rimborso come segue:

- Se non si è verificato alcun Evento Barriera, l'Importo di Rimborso corrisponde all'Importo Massimo.
- Se si è verificato un Evento Barriera, l'Importo di Rimborso corrisponde alla Base di Calcolo moltiplicata per la Performance Peggiore (finale) e diviso per il Livello Strike. L'Importo di Rimborso non sarà superiore alla Base di Calcolo.

Performance Peggiore (finale) si intende, con riguardo alla Data di Osservazione (finale), la performance del Componente del Paniere, con la peggiore (più bassa) performance. Con riguardo alla Data di Osservazione (finale), la performance di ciascun Componente del Paniere, è calcolata dall'Agente di Calcolo come K_i (finale) divisa per K_i (iniziale).

Definizioni aggiuntive e termini del prodotto

Un Evento Barriera si verifica se la Performance Peggiore (finale) è minore del Livello Barriera alla Data di Osservazione Finale.

K_i (finale) significa il Prezzo di Riferimento, del Componente del Paniere, alla Data di Osservazione Finale.

K_i (iniziale) significa il Prezzo di Riferimento, del Componente del Paniere, alla Data di Osservazione Iniziale.

Diritto di riscatto straordinario: Al ricorrere di uno o più eventi di riscatto (ad esempio, se la quotazione del prezzo d'un Componente del Paniere sul relativo mercato è definitivamente cessata) (l'"Evento di Riscatto") l'Emittente può riscattare in via straordinaria i Titoli e rimborsare i Titoli al loro Importo di Riscatto. L'"Importo di Riscatto" è il valore equo di mercato di questi ultimi.

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli qualora si verifichi un evento di

rettifica (ad esempio, ciascuna misura adottata dalla società che ha emesso il un Componente del Paniere o da una terza parte che, come conseguenza di un cambiamento nella posizione giuridica e finanziaria, influenza il rispettivo Componente del Paniere) (l'"Evento di Rettifica").

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 07/11/2024, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX gestito da Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (il "Market Maker") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: Il valore di mercato dei Titoli sarà condizionato da una serie di fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi ai Componenti del Paniere che influenzano il valore di mercato. Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo dei Componenti del Paniere.

Rischi correlati all'Importo di Rimborso: L'Importo di Rimborso potrebbe essere inferiore al Prezzo di Emissione o al Prezzo di Acquisto o anche zero. È esclusa la partecipazione ad una performance favorevole dei Componenti del Paniere oltre l'Importo Massimo. **Una perdita totale è possibile.**

Rischio correlato a un Evento Barriera: Se si verifica un Evento Barriera, non verrà applicata una formula di pagamento più vantaggiosa. In ogni caso, il Titolare potrebbe perdere il proprio capitale investito integralmente o in parte.

Rischi correlati a un Rimborso Anticipato Automatico: Se si verifica un Evento di Rimborso Anticipato, il Titolare non beneficerà di alcuna futura performance favorevole dei Componenti del Paniere, né avrà diritto ad ulteriori pagamenti derivanti dei Titoli dopo un rimborso anticipato. Inoltre, i Titolari sono esposti al rischio di poter reinvestire il capitale ricevuto a causa di un rimborso anticipato dei Titoli solo a condizioni meno favorevoli.

Rischi correlati all'Elemento Worst-of: Qualsiasi importo dovuto derivante dei Titoli può essere determinato esclusivamente con riferimento al prezzo o alla performance dei Componenti del Paniere con la Peggior Performance. Pertanto, il Titolare soggiace al rischio di subire perdite determinate dalla performance del Componente del Paniere con la Peggior Performance, anche se alcuni o tutti gli altri Componenti del Paniere hanno una performance più favorevole.

Rischi connessi ad azioni: I Titoli sono associati a rischi per i Titolari simili a quelli di un investimento diretto nelle azioni specificate come Componenti del Paniere. Il prezzo di un'azione può diminuire notevolmente o può diventare di nessun valore, ad esempio a causa dell'insolvenza dell'emittente dell'azione.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.

Rischio di liquidità: Sussiste un rischio che i Titoli non siano ampiamente distribuiti e che non esista un mercato attivo di negoziazione che possa evolversi per i Titoli. L'Emittente può, ma non è obbligato, acquistare i Titoli in qualsiasi momento e a qualsiasi prezzo sul mercato aperto, mediante offerta pubblica di acquisto o contratto privato. I Titoli acquistati in questo modo dall'Emittente possono essere detenuti, rivenduti o cancellati. Un riacquisto dei Titoli da parte dell'Emittente può influire negativamente sulla liquidità dei medesimi. L'Emittente non può assicurare che un Titolare sarà in grado di vendere i propri Titoli ad un prezzo adeguato prima del loro rimborso.
