**MiFID II product governance / Retail investors, professional investors and ECPs** – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Certificates, taking into account the five (5) categories referred to in item 19 of the Guidelines published by the European Securities and Markets Authority (ESMA) on 3 August 2023, has led to the conclusion that: (i) the target market for the Certificates is eligible counterparties, professional clients and retail clients, each as defined in Directive 2014/65/EU (as amended, **MiFID II**) MiFID II; (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the determination of the appropriate channels for distribution of the Certificates to retail clients has been made and is available on the website <https://regulatory.sgmarkets.com/#/mifid2/emt>, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable. Any person subsequently offering, selling or recommending the Certificates (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

**UK MiFIR product governance / Professional investors and ECPs only target market** – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Certificates, has led to the conclusion that: (i) the target market for the Certificates is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook (**COBS**), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (**UK MiFIR**); and (ii) all channels for distribution of the Certificates to eligible counterparties and professional clients are appropriate. Any person subsequently offering, selling or recommending the Certificates (a **distributor**) should take into consideration the manufacturer's target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Certificates (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels.

**2. RATINGS**

The Certificates to be issued have not been rated.

**3. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER**

Save for fees, if any, payable to the Dealer, and so far as the Issuer is aware, no person involved in the issue of the Certificates has an interest material to the offer. The Dealer and its affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform other services for, the Issuer and its affiliates in the ordinary course of business.

Société Générale will ensure the roles of provider of hedging instruments to the Issuer of the Certificates and Calculation Agent of the Certificates.

Société Générale will also ensure the roles of Collateral Agent and Securities Valuation Agent for the Certificates.

The possibility of conflicts of interest between the different roles of Société Générale on one hand, and between those of Société Générale in these roles and those of the Certificateholders on the other hand cannot be excluded.

Furthermore, given the banking activities of Société Générale, conflicts may arise between the interests of Société Générale acting in these capacities (including business relationship with the issuers of the financial instruments being underlyings of the certificates or possession of non public information in relation with them) and those of the Certificateholders. Finally, the activities of Société Générale on the underlying financial instrument(s), on its proprietary account or on behalf of its customers, or the establishment of hedging transactions, may also have an impact on the price of these instruments and their liquidity, and thus may be in conflict with the interests of the Certificateholders.

**7. PERFORMANCE AND EFFECT ON VALUE OF INVESTMENT**
**(i) PERFORMANCE OF FORMULA, EXPLANATION OF EFFECT ON VALUE OF INVESTMENT** *(Structured Certificates only)*

The value of the Certificates, the payment of a Coupon amount on a relevant interest payment date to a Certificateholder, the payment of an automatic early redemption amount on a relevant automatic early redemption date and the payment of a redemption amount to a Certificateholder on the final exercise date will depend on the performance of the underlying asset(s), on the relevant valuation date(s).

The value of the Certificates is linked to the positive or negative performance of one or several underlying instrument(s) within the basket. The amount(s) to be paid is/are determined on the basis of the condition which is satisfied (or not) if the performance of one or several underlying instrument(s) within the basket is higher than or equal to a predefined barrier performance.

Performance of one or several underlying instrument(s) within the basket can be leveraged and/or capped.

During the lifetime of the Certificates, the market value of these Certificates may be lower than the invested capital. Furthermore, an insolvency of the Issuer and/or the Guarantor may cause a total loss of the invested capital.

**The attention of the investors is drawn to the fact that they could sustain an entire or a partial loss of their investment.**

This product is a secured debt instrument governed by English law.

**FINAL VERSION APPROVED BY THE ISSUER**

This product is designed to provide a fixed coupon or a conditional coupon on a periodic basis. It is possible for the product to be automatically redeemed early based on pre-defined conditions. If the product is not redeemed early, both the coupon and the capital redemption at maturity will be linked to the performance of the underlyings. Your capital will be fully at risk when investing in this product. The Reference Underlying is the Underlying with the lowest observed level on the relevant observation.

**Coupon**

Provided that the product has not been previously redeemed early:

When the Coupon is defined as Fixed in the calendar table, you will receive the Coupon on the corresponding Payment Date.

When the Coupon is defined as Conditional, the coupon mechanism is as follows:

- On each Coupon Observation Date, if the level of the Reference Underlying is at or above the Coupon Barrier, you will receive on the payment date:

The Coupon multiplied by the number of periods the product has elapsed since inception, minus the sum of coupons already paid.

- Otherwise, you will not receive the Coupon.

A standard period corresponds to one month. The first or the last period could be either shorter or longer, please refer to the calendar table for more details.

**Automatic Early Redemption**

On any Early Redemption Observation Date, if the level of the Reference Underlying is at or above the Early Redemption Barrier, the product will be redeemed early and you will receive 100% of the Nominal Value, on the Early Redemption Payment Date.

**Final Redemption**

On the Maturity Date, provided that the product has not been redeemed early, you will receive a final redemption amount.

- If the Final Level of the Reference Underlying is at or above the Capital Barrier, you will receive:

100% of the Nominal Value.

- Otherwise, you will receive the Final Level of the Reference Underlying divided by the Capital Barrier and multiplied by the Nominal Value. In this scenario, you will suffer a partial or total loss of your invested amount.

**Additional Information**

- The level of each Underlying corresponds to its value expressed as a percentage of its Initial Value.

- The Initial Value of each Underlying is its value observed on the Initial Observation Date.

- The Final Level is the level of the Reference Underlying observed on the Final Observation Date.

- The Early Redemption Barrier is equal to 100% on the first Early Redemption Observation Date, then the minimum level of the Reference Underlying observed on any day during the corresponding Early Redemption Observation Period, which cannot be lower than the corresponding Floor

- The Early Redemption Observation Period corresponding to each Early Redemption Observation Date extends from 25/09/2025 (excluding) to the previous Early Redemption Observation Date (including). There is no Early Redemption Observation Period for the first Early Redemption Observation Date.

**Key risks that are specific to the guarantor**

Due to Société Générale's role as guarantor and counterparty to the Issuer's hedging transactions, investors are essentially exposed to Société Générale's credit risk and have no recourse against the Issuer in the event of the Issuer's default.

**WHAT ARE THE KEY RISKS THAT ARE SPECIFIC TO THE SECURITIES?**

The investor bears the risk of total or partial loss of the amount invested at redemption of the Certificates on the final exercise date or the event the Certificates is sold by the investor before that date.

Although it is subject to market making agreement, the liquidity of the product may be affected by exceptional circumstances that make it difficult to sell the product or at a price that results in a total or partial loss of the amount invested.

Certificates may be early redeemed automatically when the level of the Underlying(s) reaches a certain level. Investors will not benefit from the performance of the Underlying(s) subsequent to such event.

The market value of the Certificates depends on the evolution of market parameters at the time of exit (price level of the Underlying(s), interest rates, volatility and credit spreads) and may therefore result in a risk of total or partial loss on the amount initially invested.

Events unrelated to the Underlying (e.g. change in law, including tax law, force majeure, number of securities in circulation) may lead to early redemption of the Certificates and thus to total or partial loss of the amount invested.

Events affecting the Underlying(s) or hedging transactions may lead to adjustments, de-indexation, substitution of the Underlying(s), or early redemption of the Certificates and consequently to losses on the amount invested, including in the case of capital protection.

If the currency of the investor's main activities is different from that of the product, the investor is exposed to currency risk, especially in the event of exchange controls, which may reduce the amount invested.

The investor is exposed to the risk that the proceeds from the liquidation of the collateral assets will not be sufficient to cover the amount due under the Certificates which is equal to their market value (without taking into account the default of the issuer or guarantor). Such shortfall may be due to lack of diversification or liquidity of the collateral assets, miscalibration, change or absence of haircuts applicable to the valuation of the collateral assets, correlation between the value of the collateral assets and the creditworthiness of the issuer or guarantor, collateralisation at par value or subordination to payment of certain providers.

Questo prodotto è uno strumento di debito collateralizzato regolato dalla legge inglese.

Questo prodotto è concepito per pagare un premio fisso o un premio condizionato su base periodica. E' possibile che il prodotto sia automaticamente rimborsato anticipatamente in base a condizioni predefinite. Se il prodotto non è rimborsato anticipatamente, sia il premio che l'importo di liquidazione del capitale a scadenza saranno legati alla performance dei sottostanti. Il capitale investito sarà da considerarsi totalmente a rischio investendo in questo prodotto.

Il Sottostante di Riferimento è il Sottostante con il livello più basso registrato alla data di valutazione rilevante.

**Premio**

Se il prodotto non è stato rimborsato anticipatamente:

Per ogni periodo in cui il Tipo di Premio viene descritto come Fisso nella tabella delle date, si riceverà il Premio alla Data di Pagamento corrispondente. Per ogni periodo in cui il Tipo di Premio viene descritto come Condizionato, il meccanismo del premio è il seguente:

- Ad ogni Data di Valutazione del Premio, se il livello del Sottostante di Riferimento è pari o superiore alla Barriera sul Premio, si riceverà alla data di pagamento:

Il Premio moltiplicato per il numero dei periodi trascorsi dall'emissione del prodotto, meno la somma dei premi già pagati.

**FINAL VERSION APPROVED BY THE ISSUER**

- Altrimenti, non si riceverà il Premio.

Un periodo standard corrisponde a un mese. Il primo o l'ultimo periodo possono essere più o meno lunghi; per maggiori dettagli, consultare la tabella del calendario.

**Liquidazione Anticipata Automatica**

Ad una qualsiasi Data di Valutazione della Liquidazione Anticipata, se il livello del Sottostante di Riferimento è pari o superiore alla Barriera di Liquidazione Anticipata, il prodotto sarà rimborsato anticipatamente e si riceverà il 100% del Valore Nominale.

**Liquidazione Finale**

Alla Data di Scadenza, a condizione che il prodotto non sia stato rimborsato anticipatamente, si riceverà un importo finale di liquidazione.

- Se il Livello Finale del Sottostante di Riferimento è pari o superiore alla Barriera sul Capitale, si riceverà:

100% del Valore Nominale.

- Altrimenti, si riceverà il Livello Finale del Sottostante di Riferimento diviso per la Barriera sul Capitale e moltiplicato per il Valore Nominale.

In questo scenario, si andrà incontro ad una perdita parziale o totale del capitale investito.

**Ulteriori Informazioni**

- Il Valore Iniziale di ogni sottostante è il suo valore registrato alla Data di Valutazione Iniziale.

- Il Livello Finale è il livello del Sottostante di Riferimento registrato alla Data di Valutazione Finale.

**Rischi chiave specifici del garante**

Considerando che Société Générale è garante e controparte delle operazioni di copertura dell'Emittente, gli investitori sono essenzialmente esposti al rischio di credito di Société Générale e non hanno ricorso nei confronti dell'Emittente in caso di inadempimento dell'Emittente.

**QUALI SONO I RISCHI CHIAVE SPECIFICI DEI TITOLI?**

L'investitore assume il rischio di perdita totale o parziale dell'importo investito in occasione del rimborso dei Certificati alla relativa data di scadenza oppure nel caso in cui l'investitore venda i Certificati prima di tale data.

Benché sia oggetto di impegni di market making, la liquidità del prodotto può essere influenzata dal verificarsi di circostanze eccezionali che potrebbero rendere difficile vendere il prodotto o comunque ad un prezzo che produce la perdita totale o parziale dell'importo investito.

I Certificati possono essere rimborsate anticipatamente automaticamente quando il livello del(i) Sottostante(i) raggiungono un certo livello. Gli Investitori non beneficeranno della performance del(i) Sottostante(i) successivamente a tal evento.

Il valore di mercato dei Certificati dipende dall'evoluzione dei parametri di mercato al momento dell'uscita (livello dei prezzi dei Sottostanti, tassi di interesse, volatilità e credit spreads) e può pertanto comportare un rischio di perdita totale o parziale dell'importo inizialmente investito.

Il verificarsi di eventi non legati al Sottostante (quali la modifica di previsioni di legge, inclusa la normativa fiscale, eventi di forza maggiore) possono determinare il rimborso anticipato dei Certificati e quindi la perdita totale o parziale dell'importo investito.

Il verificarsi di eventi relativi al Sottostante ovvero a operazioni di copertura può determinare la necessità di rettifiche, de-indicizzazioni, sostituzione del Sottostante, e di conseguenza a perdite del capitale investito, anche in caso di prodotti a capitale protetto.

Se la valuta di riferimento delle attività principali dell'investitore è diversa da quella del prodotto, l'investitore è esposto al rischio di cambio, in particolare in caso di controlli sul cambio, che potrebbero ridurre l'importo investito.

L'investitore è esposto ai rischi che i proventi derivanti dalla liquidazione dei titoli posti a garanzia non siano sufficienti a coprire l'importo dovuto ai sensi dei Certificati che sia pari al loro valore di mercato (senza tener conto dell'inadempienza dell'Emittente o del Garante). Tale shortfall potrebbe essere dovuto alla mancanza di diversificazione o liquidità dei titoli posti a garanzia, a un'errata calibrazione, a una modifica o all'assenza di haircuts applicabili alla valutazione delle garanzie, correlazione tra il valore delle garanzie e la solvibilità dell'emittente o garante, collateralizzazione al valore nominale o subordinazione al pagamento dei providers.
