- (3) *Variation of the Terms and Conditions of the Securities:* If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without any consent or approval of the Security Holders, at any time vary these Terms and Conditions in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Security Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). - (4) For avoidance of doubt, any Variation pursuant to § 9 (3) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.

Each Security Holder further agrees that the rights of the Security Holders are subject to, and will be varied if necessary so as to give effect to, the exercise of any Bail-in Power by the Relevant Resolution Authority.

Upon the Issuer being informed or notified by the Relevant Resolution Authority of the actual exercise of the date from which the Bail-in Power is effective with respect to the Securities, the Issuer shall notify the Security Holders without delay pursuant to § 6 of the General Conditions. - (2) The exercise of the Bail-in Power by the Relevant Resolution Authority with respect to the Securities shall not constitute an event of default, as applicable, or entail the Security Holders to terminate the Securities and these Terms and Conditions shall continue to apply in relation to the redemption amounts payable with respect to the Securities subject to any modification of the amount of distributions or other ongoing payments payable to reflect the reduction of the redemption amount payable, and any further modification of these Terms and Conditions that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

"Bail-in Power" means any statutory write-down, transfer and/or conversion power existing from time to time under any laws, regulations, rules or requirements, whether relating to the resolution or independent of any resolution action, of credit institutions, investment firms and/or entities of the Group incorporated in the relevant Member State in effect and applicable in the relevant Member State to the Issuer or other entities of the Group, including (but not limited to) any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of any European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a relevant Member State resolution regime or otherwise, pursuant to which liabilities of the Issuer and/or any entities of the Group can be reduced, cancelled and/or converted into shares or obligations of the obligor or any other person.

- (a) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the relevant Securities with own funds instruments or eligible liabilities instruments of equal or higher quality at terms that are sustainable for its income capacity; or
- (b) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that its own funds and eligible liabilities would, following such call, redemption, repayment or repurchase (as applicable), exceed the requirements of own funds and eligible liabilities laid down in the CRR and in Directives 2013/36/EU and 2014/59/EU by a margin that the competent resolution authority, in agreement with the competent authority, considers necessary; or
- (c) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that the partial or full replacement of the relevant Securities with own fund instruments is necessary to ensure compliance with the own funds requirements laid down in the CRR and in Directive 2013/36/EU for continuing authorisation,

subject in any event to any different conditions or requirements as may be applicable from time to time under the CRR and Directives 2013/36/EU and 2014/59/EU.

The Relevant Resolution Authority may grant a general prior permission, for a specified period which shall not exceed one year, to redeem or repurchase (including for market making purposes) senior notes or non-preferred notes, in the limit of a predetermined amount, subject to criteria that ensure that any such redemption or repurchase will be in accordance with the conditions set out in sub-paragraphs (a) or (b) of the preceding paragraph.

§ 5

Issuer's Conversion Right

Issuer's Conversion Right: Upon the occurrence of a Conversion Event the Securities shall be redeemed at the Settlement Amount on the Final Payment Date.

The **"Settlement Amount"** shall be the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event; it shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the first Banking Day before the conversion becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions.

The right for payment of any Additional Conditional Amount (m) ceases to exist in relation to all Additional Conditional Amount Payment Dates (m) following the occurrence of a Conversion Event.

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If a Payment Date is not a Banking Day then the Modified Following Business Day Convention shall apply. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date will be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine acting in accordance with relevant market practice and in good faith the respective Reference Price required for the calculations or, respectively, specifications described in these Terms and Conditions. Such Reference Price shall be determined in accordance with prevailing market conditions at 10:00 a.m. (Milan local time) on this 9th Banking Day.

If within these 8 Banking Days traded Underlying Linked Derivatives expire and are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, Replacement Specification, Reversal of Adjustment, Notifications

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 acting in accordance with relevant market practice and in good faith, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the Determining Futures Exchange regarding the Underlying Linked Derivatives. The Calculation Agent is, however, also authorised to make an Adjustment if there is no adjustment made to the Underlying Linked Derivatives by the Determining Futures Exchange. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the Determining Futures Exchange with respect to the Underlying Linked Derivatives.
 - (b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the adjustments made by the Determining Futures Exchange in order to take into account the Adjustment Goal in an appropriate manner:
 - (i) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
 - (ii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is unreasonable for Security Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
 - (iii) The adjustment envisaged by the Determining Futures Exchange regarding the Underlying Linked Derivatives is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith.
- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measures in accordance with paragraph (1) above:
- (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the Underlying or a third party, that impacts the computed value of the Underlying not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).
 - (b) *Replacement of the Underlying:* In case of a take-over or a merger or similar measure with respect to the Underlying the Calculation Agent can replace the Underlying with the share of the successor of the issuer of the original Underlying or with another share of – inter alia – comparable liquidity and industry affiliation as the original Underlying (the "**Replacement Underlying**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement Underlying.
- In case of a split or a similar measure with respect to the Underlying the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement Underlying. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the Determining Futures Exchange, the share with the highest market capitalisation or another share from the basket of shares determined by the Determining Futures Exchange with – inter alia – comparable liquidity and industry affiliation as the original Underlying to be the Replacement Underlying. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph 2 (a) above.
- If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph (5) below), every reference to the Underlying in these Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.
- (3) *Replacement Specification:* If a published price of the Underlying as required pursuant to these Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Relevant Exchange after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the

respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.

- (4) *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.
- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Security Holders according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

§ 9

Early redemption at the option of the Issuer

- (1) The Securities may be early redeemed at any time in whole but not in part, at the option of the Issuer, upon the occurrence of the MREL Disqualification Event, but subject to compliance with the then applicable MREL Requirements (including, without limitation, the conditions set out in § 11 (3) of the General Conditions), upon not more than 60 days' nor less than 30 days' prior notice of such early redemption, at their Optional Redemption Amount, in accordance with the MREL Requirements.

"**MREL Requirements**" means the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group, from time to time, (including any applicable transitional or grandfathering provisions), including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities adopted by the Federal Republic of Germany or the Republic of Italy, a relevant resolution authority or the European Banking Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time.

"**MREL Disqualification Event**" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

- (2) The Optional Redemption Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.
- (3) Any notice in accordance with this paragraph (3) shall be given by a notice in accordance with § 6 of the General Conditions. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement that the redemption is made in accordance with this § 9.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the UniCredit Group's activities in different geographical areas: Despite the Group's business being materially connected to Italy and, therefore, to the state of its economy (Italy accounted for approximately 44% of the Group's revenues in 9M25, computed as sum of Italy, Germany, Austria, Central & Eastern Europe and Russia) the UniCredit Group is also present in Germany (accounting for approximately 22% of the Group's revenues in 9M25), in Austria (accounting for approximately 10% of the Group's revenues), in Central & Eastern Europe (accounting for approximately 19% and covering Czech Republic and Slovakia, Hungary, Slovenia, Croatia, Bulgaria, Romania, Bosnia & Herzegovina and Serbia). UniCredit also has marginal activities in Russia (accounting for approximately 5% of the Group's revenues in 9M25). The exposure to which has been reduced (including over 9M25), since the start of the Ukrainian crisis. The UniCredit Group's geographical spread will also continue to expose it to risks and uncertainties of a varying nature and magnitude affecting each of the various countries in which it operates and which could be more complex in relation to countries outside the European Union. Central and Eastern European countries in particular have historically experienced volatile capital and foreign exchange markets, often coupled with political, economic and financial instability (at present potentially increased due to the Ukrainian crisis). The evolution of the geopolitical landscape remains under continuous monitoring by UniCredit, with current factors including recent and constantly evolving U.S. trade policy decisions, that could have potential implications on global trade relationships both with upsides (e.g. new trade partnerships) and downsides (e.g. impact on export/import) as possible outcomes. This area is at the early stage of evolution and potential impacts, if any, on UniCredit's primary geographies will be duly taken into account as part of the normal processes of the risk management framework. At the date of the Registration Document, the Issuer's presence in Russia exposes it to the specific risks connected to the ongoing Ukrainian crisis. Such risk exposure also requires the Issuer to constantly employ a significant amount of resources for the dynamic management of risks and ongoing assessment of the possible effects of the geopolitical crisis, while maintaining an overall prudent and sustainable approach to distributions. With regard to the assets and liabilities of Russian subsidiaries, the Group holds investments in Russia through AO UniCredit Bank and its subsidiaries OOO UniCredit Garant, and OOO UniCredit Leasing.

The line-by-line consolidation determined the recognition of total assets for Euro 6,306 million vs. Euro 5,597 million as of 31 December 2024, mainly attributable to a change in financial assets at amortised cost for the application of the updated exchange rate.

As at 30 June 2025, the revaluation reserves, whose treatment envisages the recycling through P&L in case of derecognition of the associated assets and liabilities, are equal to Euro -2,624 million mainly arising from the foreign exchange revaluation reserve resulting from the conversion of assets and liabilities of these companies in EUR; the positive delta for Euro 697 million vs. year-end 2024 (Euro -3,321 million), is mainly due the appreciation of the Russian Ruble over the period.

As of 2Q2025 the loss of control over AO UniCredit Bank would determine the derecognition of net assets having a carrying value of Euro 6,426 million (also embedding the negative revaluation reserves), with a correspondent negative effect through P&L, in case the events leading to the derecognition

would not envisage cash-in receivables; under a regulatory perspective over CET1 capital, the negative effect related to the revaluation Reserves (Euro - 2,624 million) is basically neutral since it is already considered according to its nature and sign (also taking into account regulatory filters). The extreme loss scenario impact on UniCredit CET1 ratio as of September 2025 is equal to -79bps or -93bps including impact from threshold deduction, if this were applicable at the time the event occurs.

Credit risk and risk of credit quality deterioration: The financial and capital strength, as well as the profitability of the UniCredit Group also depend on the creditworthiness of its customers. An unexpected change in the creditworthiness of a counterparty exposes the Group to the risk of a change in the value of the associated credit exposure, requiring it to be partially or totally written down. Such credit risk is inherent in, and material to, the traditional activity of providing credit. As at September 30, 2025, the value of the UniCredit Group's non-performing exposures ("**NPEs**") was equal to Euro 11.6 billion (with a gross NPE ratio of 2.6%), decreasing Y/Y; the stock of loan loss provisions ("**LLPs**") was equal to Euro 5.2 billion with a coverage ratio of 45.4%. As at September 30, 2025, the Group's net NPEs stood at Euro 6.3 billion. The UniCredit Group's CoR stood at 10 bps as at September 30, 2025 and Group's overlays on performing exposures was approximately Euro 1.7 billion. The UniCredit Group is also exposed to the non-traditional counterparty credit risk arising in the context of negotiations of derivative contracts and repurchase transactions (repos) on a wide range of products if a counterparty becomes unable to fulfil its obligations towards the UniCredit Group.

Risks associated with the exposure of the UniCredit Group to sovereign debt: The book value of sovereign debt securities exposures of the UniCredit Group as at September 30, 2025 amounted to Euro 133,274 million (Euro 116,130 million as at December 31, 2024) of which about 74% is concentrated in eight countries: Italy (Euro 48,219 million), Spain (Euro 17,364 million), France (Euro 8,581 million), Germany (Euro 8,194 million), Austria (Euro 4,756 million), Czech Republic (Euro 4,615 million), United States of America (Euro 3,508 million) and Romania (Euro 3,184 million). Worsening of the spread between the return on government bonds and risk-free benchmark rates, downgrading of a sovereign entity's rating might impact negatively the value of UniCredit's securities portfolio may be detrimental to the capital position and operating results of the Issuer, although there were no indications of defaults over the course of 2025. The Group's sovereign debt exposure to Russia (Euro 639 million, as of September 30, 2025) is almost totally held by the Russian controlled bank in local currency and accordingly classified in the banking book. In addition to the exposures to sovereign debt securities, loans given to central and local governments and governmental bodies must be taken into account, amounting to Euro 27,004 million as at September 30, 2025 (as at 31 December 2024 it amounted to Euro 26,515 million).

Liquidity risk: The UniCredit Group is and will be exposed to the possibility of being unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The liquidity risks specific to the activities of UniCredit concern funding/market liquidity and mismatch/contingency risks. As of June 30, 2025, the Liquidity Coverage Ratio ("**LCR**") of the UniCredit Group was equal to 142% whereas at June 30, 2024 it was equal to 146% (calculated as the average of the 12 latest end of month ratios). As of June 30, 2025, the Net Stable Funding Ratio ("**NSFR**") was 128% whereas at June 30, 2024 it was equal to 129%. The regulatory liquidity indicators as at September 30, 2025 were as follows: (i) LCR above 140%, (ii) preliminary NSFR above 125% and (iii) Loan to Deposit Ratio equal to 86%.

Risks associated with capital adequacy requirements: Following the results of the SREP 2024, capital requirements to be met by UniCredit involve a P2R at 200 bps (minimum of 1.13% as CET1 capital and 1.50% as Tier 1 capital), a leverage ratio (P2R-LR) of zero and no additional liquidity requirements. As of September 2025, UniCredit is required to keep: (i) OCR at 10.49% in terms of CET1, at 12.36% in terms of Tier 1, and at 14.86% in terms of Total Capital, and (ii) OLRR at 3% on a consolidated basis. As of September 30, 2025, consolidated CET1 Capital, Tier 1 and Total Capital ratios were equal to, respectively: 14.8%, 16.5% and 19.1%, while the LRE was 5.2%. All in all, the outcome of the 2024 SREP as summarized by the P2R is in line with previous years' assessment, and there are no other impacts stemming from that relating to 2024. Furthermore, following the communication received by the SRB and the Bank of Italy in April 2025, UniCredit is required to comply, on a consolidated basis, with: (i) MREL requirement equal to 22.18% of RWAs – plus the applicable Combined Buffer Requirement (the "**CBR**") – and 5.98% for Leverage Ratio Exposures ("**LRE**"); and subordinated MREL (i.e., to be met with subordinated instruments) equal to 14.49% of RWAs plus the applicable CBR – and 5.98% for the LRE.

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (for example, if price quotation of the Underlying on the Relevant Exchange is suspended indefinitely or permanently discontinued and no Replacement Exchange is available or could be determined) (the "Conversion Event") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "Settlement Amount" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Adjustments to the Terms and Conditions: The Calculation Agent may adjust the Terms and Conditions of the Securities if an adjustment event (for example, each measure taken by the company that has issued the Underlying or by a third party which, as a result of a change in the legal and financial position, affects the Underlying) (the "Adjustment Event") occurs.

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 4 March 2026 on the following multilateral trading facilities (MTF): EuroTLX, organized and managed by Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (the "Market Maker") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency.

The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to sell the Securities at a specific time or for a specific price. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder.

Risks arising from missing ongoing payments: Any Additional Conditional Amount (m) will only be payable if an Additional Conditional Amount Payment Event (m) occurs with respect to an Additional Conditional Amount Observation Date (m). If an Additional Conditional Amount Payment Event (m) does not occur, the Security Holder is not entitled to receive the respective Additional Conditional Amount (m). There is the risk, that in case of an unfavourable performance of the Underlying no payment of any Additional Conditional Amount (m) may occur.

Risks related to shares: The Securities are associated with similar risks for the Security Holders as in case of a direct investment in the shares specified as Underlying. The price of a share can fall sharply or it can become worthless, e.g. due to the insolvency of the issuer of the share.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Quali sono i principali rischi specifici dell’Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell’Emittente:

Rischi connessi alle attività del Gruppo UniCredit in diverse aree geografiche: Nonostante il business del Gruppo sia sostanzialmente legato all'Italia e, quindi, allo stato della sua economia (l'Italia rappresenta circa il 44% dei ricavi del Gruppo nei 9M25, calcolati come somma di Italia, Germania, Austria, Europa Centrale ed Orientale e Russia), il Gruppo UniCredit è presente anche in Germania (che rappresenta circa il 22% dei ricavi del Gruppo nei 9M25), in Austria (con una quota di circa il 10% dei ricavi del Gruppo), in Europa centrale ed orientale (con una quota di circa il 19% e comprendente Repubblica Ceca e Slovacchia, Ungheria, Slovenia, Croazia, Bulgaria, Romania, Bosnia-Erzegovina e Serbia). UniCredit ha anche attività marginali in Russia (circa il 5% dei ricavi del Gruppo nei 9M25). L'esposizione è stata ridotta (anche nel corso dei 9M25) dall'inizio della crisi ucraina. La diffusione geografica del Gruppo UniCredit continuerà inoltre a esporlo a rischi e incertezze di varia natura e portata che interessano ciascuno dei vari paesi in cui opera e che potrebbero essere più complessi in relazione ai paesi al di fuori dell'Unione Europea. I paesi dell'Europa centrale e orientale, in particolare, hanno storicamente sperimentato mercati dei capitali e dei cambi volatili, spesso associati a instabilità politica, economica e finanziaria (attualmente potenzialmente aumentata a causa della crisi ucraina). L'evoluzione del panorama geopolitico è costantemente monitorata da UniCredit, con fattori attuali che includono le recenti decisioni in continua evoluzione della politica commerciale statunitense, che potrebbero avere potenziali implicazioni sulle relazioni commerciali globali sia con aspetti positivi (ad esempio, nuove partnership commerciali) che negativi (ad esempio, impatto su esportazioni/importazioni) come possibili risultati. Quest'area è nella fase iniziale di evoluzione e i potenziali impatti, se ve ne sono, sulle principali aree geografiche di UniCredit saranno debitamente presi in considerazione nell'ambito dei normali processi del framework relativo alla gestione del rischio. Alla data del Documento di Registrazione, la presenza dell'Emittente in Russia lo espone ai rischi specifici connessi alla crisi ucraina in corso. Tale esposizione al rischio richiede inoltre che l'Emittente impieghi costantemente una quantità significativa di risorse per la gestione dinamica dei rischi e la valutazione continua dei possibili effetti della crisi geopolitica, mantenendo un approccio complessivamente prudente e sostenibile alle distribuzioni. Con riferimento alle attività e alle passività delle controllate russe, Il Gruppo detiene partecipazioni in Russia attraverso AO UniCredit Bank e le sue controllate OOO UniCredit Garant e OOO UniCredit Leasing. Il consolidamento integrale ha determinato la rilevazione di un totale attivo per Euro 6.306 milioni rispetto a Euro 5.597 milioni al 31 dicembre 2024, principalmente attribuibile alla variazione delle attività finanziarie al costo ammortizzato per l'applicazione del tasso di cambio aggiornato. Al 30 giugno 2025, le riserve di valutazione, il cui trattamento prevede il rigiro a Conto economico, in caso di cancellazione contabile delle relative

attività e passività, sono pari a Euro -2.624 milioni derivanti principalmente dalla riserva oscillazione cambi risultante dalla conversione di attività e passività di queste società in euro; la variazione positiva per Euro 697 milioni rispetto a fine anno 2024 (Euro -3.321 milioni) è principalmente dovuta all'apprezzamento del rublo durante il periodo.

Al 2Q2025 la perdita di controllo su AO UniCredit Bank determinerebbe la cancellazione contabile di patrimonio netto avente un valore di bilancio pari a Euro 6.426 milioni (che include anche le riserve di valutazione negative), con conseguente impatto negativo di Conto economico, nel caso in cui gli eventi che determinano la *derecognition* non prevedano il pagamento di un prezzo; da un punto di vista regolamentare l'impatto negativo sul CET1 relativo alla riserva di valutazione (Euro -11,6 miliardi) è sostanzialmente neutrale in quanto è già considerato in base alla sua natura e al suo segno (anche tenendo in considerazione i filtri regolamentari). L'impatto dello scenario di perdita estrema sul coefficiente CET1 di UniCredit a settembre 2025 è pari a -79 punti base o -93 punti base includendo l'impatto della deduzione della soglia, se applicabile al momento del verificarsi dell'evento.

Rischio di credito e rischio di deterioramento della qualità del credito: La solidità finanziaria e patrimoniale, nonché la redditività del Gruppo UniCredit dipendono anche dall'affidabilità creditizia dei propri clienti. Un cambiamento inatteso nell'affidabilità creditizia di una controparte espone il Gruppo al rischio di una variazione del valore dell'esposizione creditizia associata, che richiede una svalutazione parziale o totale. Tale rischio di credito è intrinseco e rilevante per l'attività tradizionale di erogazione del credito. Al 30 settembre 2025, il valore delle esposizioni non performing ("NPE") del Gruppo UniCredit era pari a 11,6 miliardi di euro (con un NPE ratio lordo del 2,6%), in calo A/A; lo stock di accantonamenti per perdite su crediti ("LLPs") su esposizioni non performing era pari a 5,2 miliardi di euro con un coverage ratio del 45,4%. Al 30 settembre 2025, le esposizioni non performing nette del Gruppo erano pari a 6,3 miliardi di euro. Il CoR del Gruppo UniCredit si è attestato a 10 punti base al 30 settembre 2025 e gli overlay sulle esposizioni performing di Gruppo ammontavano a circa 1,7 miliardi di euro. Il Gruppo UniCredit è inoltre esposto al rischio di credito di controparte non tradizionale derivante dalla negoziazione di contratti derivati e di operazioni di riacquisto (pronti contro termine) su un'ampia gamma di prodotti, nel caso in cui una controparte non sia in grado di adempiere ai propri obblighi nei confronti del Gruppo UniCredit.

Rischi connessi all'esposizione del Gruppo UniCredit al debito sovrano: Il valore contabile delle esposizioni in titoli di debito sovrano del Gruppo UniCredit al 30 settembre 2025 ammontava a 133.274 milioni di euro (116.130 milioni di euro al 31 dicembre 2024), di cui circa il 74% è concentrato in otto paesi: Italia (48.219 milioni di euro), Spagna (17.364 milioni di euro), Francia (8.581 milioni di euro), Germania (8.194 milioni di euro), Austria (4.756 milioni di euro), Repubblica Ceca (4.615 milioni di euro), Stati Uniti d'America (3.508 milioni di euro) e Romania (3.184 milioni di euro). Il peggioramento dello spread tra il rendimento dei titoli di Stato e i tassi di riferimento privi di rischio, il declassamento del rating di un'entità sovrana potrebbero influire negativamente sul valore del portafoglio titoli di UniCredit e potrebbero avere un impatto negativo sulla posizione patrimoniale e sui risultati operativi dell'Emittente, sebbene nel corso del 2025 non vi siano state indicazioni di casi di inadempienza. L'esposizione del Gruppo al debito sovrano della Russia (639 milioni di euro al 30 settembre 2025) è quasi interamente detenuta dalla banca controllata russa in valuta locale e pertanto classificata nel portafoglio bancario.

Alle esposizioni Sovrane in titoli di debito vanno altresì aggiunti i finanziamenti erogati a governi centrali e locali e agli enti governativi, pari a 27.004 milioni di euro al 30 settembre 2025 (26.515 milioni di euro al 31 dicembre 2024).

Rischio di liquidità: Il Gruppo UniCredit è e sarà esposto alla possibilità di non essere in grado di far fronte ai suoi obblighi di pagamento e consegna in contanti attuali e futuri, previsti e imprevisi, senza compromettere le sue operazioni quotidiane o la sua posizione finanziaria. I rischi di liquidità specifici delle attività di UniCredit riguardano la liquidità di finanziamento/mercato e i rischi di disallineamento/contingenza. Al 30 giugno 2025, il Liquidity Coverage Ratio ("LCR") del Gruppo UniCredit era pari al 142%, mentre al 30 giugno 2024 era pari al 146% (calcolato come media dei 12 ultimi rapporti di fine mese). Al 30 giugno 2025, il Net Stable Funding Ratio ("NSFR") era pari al 128% mentre al 30 giugno 2024 era pari al 129%. Gli indicatori regolamentari di liquidità al 30 settembre 2025 erano i seguenti: (i) LCR superiore al 140%, (ii) NSFR preliminare superiore al 125% e (iii) Loan to Deposit Ratio pari all'86%.

Rischi connessi all'adeguatezza patrimoniale: In base ai risultati dello SREP 2024, i requisiti patrimoniali che UniCredit deve soddisfare prevedono un P2R a 200 bps (minimo dell'1,13% come capitale CET1 e dell'1,50% come capitale Tier 1), un coefficiente di leva finanziaria (P2R-LR) pari a zero e nessun requisito di liquidità aggiuntivo. A settembre 2025, UniCredit è tenuta a mantenere: (i) OCR al 10,49% in termini di CET1, al 12,36% in termini di Tier 1 e al 14,86% in termini di capitale totale, e (ii) OLRR al 3% su base consolidata. Al 30 settembre 2025, i coefficienti consolidati di CET1, Tier 1 e capitale totale erano pari, rispettivamente, a: 14,8%, 16,5% e 19,1%, mentre l'LRE era pari al 5,2%. Nel complesso, il risultato dello SREP 2024, come sintetizzato dal P2R, è in linea con la valutazione degli anni precedenti e non vi sono altri impatti derivanti da quello relativo al 2024. Inoltre, a seguito della comunicazione ricevuta dal SRB e dalla Banca d'Italia nell'aprile 2025, UniCredit è tenuta a rispettare, su base consolidata, i seguenti requisiti: (i) un requisito MREL pari al 22,18% delle RWAs – più il Requisito Combinato di Riserva (Combined Buffer Requirement, "CBR") applicabile – e al 5,98% delle esposizioni per il coefficiente di leva finanziaria (Leverage Ratio Exposure, "LRE"); nonché un requisito MREL subordinato (cioè da soddisfare con strumenti subordinati) pari al 14,49% delle RWA più il CBR applicabile – e al 5,98% delle LRE.

Definizioni aggiuntive e termini del prodotto

Base di Calcolo:	EUR 1.000
Data di Pagamento Finale:	25/02/2032
Data di Osservazione Iniziale:	24/02/2026
Importo Minimo:	EUR 1.000
Importo di Rimborso Opzionale:	Base di Calcolo

Conversione dei Titoli da parte dell'Emittente: Al verificarsi di uno o più eventi di conversione (ad esempio, se la quotazione del prezzo del Sottostante sul Relativo Mercato (*Relevant Exchange*) è sospesa in modo indefinito o interrotta in modo permanente e non è disponibile o poteva essere determinato alcun Mercato Sostitutivo (*Replacement Exchange*)) (l'"Evento di Conversione") l'Emittente può convertire i Titoli e rimborsarli alla Data di Pagamento Finale mediante il pagamento dell'Importo di Regolamento. L'"Importo di Regolamento" è pari al valore di mercato dei Titoli, maggiorato degli interessi maturati per il periodo che va fino alla Data di Pagamento Finale al tasso di mercato a cui sono negoziate in tale momento le passività dell'Emittente con la stessa durata residua dei Titoli, entro il decimo Giorno Lavorativo successivo al verificarsi dell'Evento di Conversione, come determinato dall'Agente di Calcolo. L'Importo di Regolamento in ogni caso non potrà essere inferiore all'Importo Minimo.

Rimborso Anticipato a discrezione dell'Emittente: I Titoli possono essere rimborsati in qualsiasi momento in tutto ma non in parte, a discrezione dell'Emittente al loro Importo di Rimborso Opzionale alla data specificata in un avviso pubblicato sul sito dell'Emittente, previa comunicazione all'Agente di Pagamento e ai Titolari dei Titoli, se l'Emittente determina che tutto o parte della serie dei Titoli è o sarà escluso in tutto o in parte dalle passività ammissibili disponibili per soddisfare i Requisiti MREL (Evento di Inammissibilità MREL).

Rettifiche dei Termini e delle Condizioni dei Titoli: L'Agente di Calcolo potrà rettificare i Termini e le Condizioni dei Titoli qualora si verifichi un evento di rettifica (ad esempio, ciascuna misura adottata dalla società che ha emesso il Sottostante o da una terza parte che, come conseguenza di un cambiamento nella posizione giuridica e finanziaria, influenza il Sottostante) (l'"Evento di Rettifica").

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 04/03/2026, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX, organizzato e gestito da Borsa Italiana S.p.A. ("EuroTLX")

UniCredit Bank GmbH (il "**Market Maker**") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: I Portatori dei Titoli sono esposti al rischio di forti fluttuazioni del prezzo di mercato dei Titoli nel corso della loro durata nonché al rischio di non poter vendere i Titoli in un determinato momento o ad un determinato prezzo. Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante. Peraltro, il valore di mercato dei Titoli sarà condizionato da una serie di ulteriori fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato.

Rischi correlati all'Importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al prezzo di acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico prezzo di acquisto pagato dal Titolare.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: Qualsiasi Importo Condizionato Aggiuntivo (m) sarà pagabile solo se si verifica un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) in una Data di Osservazione dell'Importo Condizionato Aggiuntivo (m). Se un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) non si verifica, il Titolare non ha diritto a ricevere il rispettivo Importo Condizionato Aggiuntivo (m). Vi è il rischio che in caso di andamento sfavorevole del Sottostante non si verifichi il pagamento di alcun Importo Condizionato Aggiuntivo (m).

Rischi connessi ad azioni: I Titoli sono associati a rischi per i Portatori dei Titoli simili a quelli di un investimento diretto nelle azioni specificate come Sottostante. Il prezzo di un'azione può diminuire notevolmente o può diventare di nessun valore, ad esempio a causa dell'insolvenza dell'emittente dell'azione.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.
