 - (f) (i) the proceeds are immediately available to the New Issuer, without limitation (ii) each Security Holder is treated as if the Substitution of the Issuer had not taken place and (iii) the competent supervisory authority or resolution authority has granted its prior consent.

Any

notices to the Security Holders relating to the amendments referred to in the previous sentence shall be made in accordance with § 6 of the General Conditions.

- (3) *Variation of the Terms and Conditions of the Securities:* If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without any consent or approval of the Security Holders, at any time vary these Terms and Conditions in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Security Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). - (4) For avoidance of doubt, any Variation pursuant to § 9 (3) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.

Upon the Issuer being informed or notified by the Relevant Resolution Authority of the actual exercise of the date from which the Bail-in Power is effective with respect to the Securities, the Issuer shall notify the Security Holders without delay pursuant to § 6 of the General Conditions. Any delay or failure by the Issuer to give notice shall not affect the validity and enforceability of the Bail-in Power nor the effects on the Securities described in this § 11.

- (2) The exercise of the Bail-in Power by the Relevant Resolution Authority with respect to the Securities shall not constitute an event of default, as applicable, or entail the Security Holders to terminate the Securities and these Terms and Conditions shall continue to apply in relation to the redemption amounts payable with respect to the Securities subject to any modification of the amount of distributions or other ongoing payments payable to reflect the reduction of the redemption amount payable, and any further modification of these Terms and Conditions that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

"Bail-in Power" means any statutory write-down, transfer and/or conversion power existing from time to time under any laws, regulations, rules or requirements, whether relating to the resolution or independent of any resolution action, of credit institutions, investment firms and/or entities of the Group incorporated in the relevant Member State in effect and applicable in the relevant Member State to the Issuer or other entities of the Group, including (but not limited to) any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of any European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a relevant Member State resolution regime or otherwise, pursuant to which liabilities of the Issuer and/or any entities of the Group can be reduced, cancelled and/or converted into shares or obligations of the obligor or any other person.

- (a) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the relevant Securities with own funds instruments or eligible liabilities instruments of equal or higher quality at terms that are sustainable for its income capacity; or
- (b) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that its own funds and eligible liabilities would, following such call, redemption, repayment or repurchase (as applicable), exceed the requirements of own funds and eligible liabilities laid down in the CRR and in Directives 2013/36/EU and 2014/59/EU by a margin that the competent resolution authority, in agreement with the competent authority, considers necessary; or
- (c) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that the partial or full replacement of the relevant Securities with own fund instruments is necessary to ensure compliance with the own funds requirements laid down in the CRR and in Directive 2013/36/EU for continuing authorisation,

subject in any event to any different conditions or requirements as may be applicable from time to time under the CRR and Directives 2013/36/EU and 2014/59/EU.

The Relevant Resolution Authority may grant a general prior permission, for a specified period which shall not exceed one year, to redeem or repurchase (including for market making purposes) senior notes or non-preferred notes, in the limit of a predetermined amount, subject to criteria that ensure that any such redemption or repurchase will be in accordance with the conditions set out in sub-paragraphs (a) or (b) of the preceding paragraph.

Interest, Additional Amount

- (1) *Interest*: The Securities do not bear interest.
- (2) *Additional Conditional Amount (Performance)*: If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has occurred, the respective Additional Conditional Amount (*Performance*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Performance*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The respective Additional Conditional Amount (*Performance*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

Additional Conditional Amount (*Performance*) (m) = Calculation Amount x Participation Factor (m) x (R (m) + Spread (m)) x Day Count Fraction.

Note to the investor: Please be aware that if a negative Spread (m) (i.e. a Spread (m) characterised by a minus sign (-) in front of the number) is specified in the Product and Underlying Data for a specific Calculation Period, the absolute value of the Spread (m) is deducted from R (m) for mathematical reasons instead of being added, as suggested by the plus sign (+) used in the formula. The respective Additional Conditional Amount (Performance) (m) will therefore be lower than R (m).

If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has not occurred, the respective Additional Conditional Amount (*Performance*) (m) will not be paid.

- (3) *Reference Rate: "Reference Rate"* means the offer rate (expressed as per cent. per annum) for deposits in the Reference Rate Currency for the respective Designated Maturity which appears on the Screen Page as of the Reference Rate Time, on the respective Calculation Date.

Subject to the occurrence of a Reference Rate Cessation Event, if the Screen Page is not available at the Reference Rate Time, or if such offer rate does not appear on the Screen Page, the Calculation Agent will act in accordance with relevant market practice and in good faith

- (a) request each of the Reference Banks in the Reference Rate Financial Centre to provide its rate at which deposits in the Reference Rate Currency are offered at the Reference Rate Time on the respective Calculation Date to prime banks in the interbank market for the respective Designated Maturity in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on a Calculation Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded as described above) of the rates quoted by major banks in the Reference Rate Financial Centre, determined by the Calculation Agent acting in accordance with relevant market practice and in good faith, at the Reference Rate Time, on that Calculation Date for loans in the Reference Rate Currency to leading European banks for the respective Designated Maturity and in a representative amount;

or, if the Reference Rate cannot be determined pursuant to (a) above or the determination procedure pursuant to (a) does no longer reflect current market practices for derivative instruments,

- (b) determine the Reference Rate based on the publication of the Reference Rate by an alternative authorised distributor or the Reference Rate-Administrator.

If the Calculation Agent is unable to determine the Reference Rate on the basis of the publication of the Reference Rate by an alternative authorised distributor or the Reference Rate-Administrator, the Calculation Agent will determine the Reference Rate acting in accordance with relevant market practice and in good faith. In doing so, it may in particular

- (i) use an alternative rate for the Reference Rate formally recommended by the Reference Rate-Administrator or, alternatively, by the supervisor of the Reference Rate or the central bank for the Reference Rate Currency, or in the absence thereof
- (ii) use the alternative rate for the Reference Rate implemented by a futures exchange or alternatively a central counterparty for the Reference Rate, provided that it is sufficiently representative of the Reference Rate; or in the absence thereof
- (iii) use the average value of the last Reference Rates published at the Reference Rate Time of the previous five Banking Days prior to the respective Calculation Date.

- (4) *Day Count Fraction: "Day Count Fraction"* for the purpose of calculating the Additional Conditional Amount (m) for a Calculation Period means Act/360, calculated as the actual number of days in the Calculation Period divided by 360.

§ 3

Redemption

Redemption: The Securities shall be redeemed by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

§ 4

Redemption Amount

Redemption Amount: The Redemption Amount corresponds to the Minimum Amount.

§ 5

Issuer's Conversion Right

Issuer's Conversion Right: Upon the occurrence of a Conversion Event the Securities shall be redeemed at the Settlement Amount on the Final Payment Date.

The "**Settlement Amount**" shall be the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event; it shall be determined by the Calculation Agent acting in accordance with relevant market practice and in good faith. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the first Banking Day before the conversion becomes effective: the price of the Underlying, the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions.

The right for payment of any Additional Conditional Amount (m) ceases to exist in relation to all Additional Conditional Amount Payment Dates (m) following the occurrence of a Conversion Event.

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.

§ 6

Payments

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.
- (2) *Business day convention:* If a Payment Date is not a Banking Day then the Modified Following Business Day Convention shall apply. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.
- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

(intentionally omitted)

§ 8

(intentionally omitted)

§ 9

Replacement Reference Rate, Adjustments, Interest Rate Adjustment Factor or Spread, Notifications

- (1) *Replacement Reference Rate:* Upon the occurrence of a Reference Rate Cessation Event on or preceding an Observation Date, the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by a Replacement Reference Rate that pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")

- (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the Reference Rate-Administrator, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
- (b) is typically used as a replacement reference rate for comparable securities (in particular with a view to the Reference Rate Currency, the type of interest payment and the term), or – in the event and as long as this is not the case –
- (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the Reference Rate Currency or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –
- (d) is determined by the Calculation Agent acting in accordance with relevant market practice and in good faith with a view to the Reference Rate Currency and the Designated Maturity in a reasonable economical manner, based on the general interest rate level at the relevant point in time in Italy.

The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent Observation Dates, however, a new adjustment may be made with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-based interest rate.

- (2) *Adjustments:* If necessary, the Calculation Agent will make further adjustments to these Terms and Conditions acting in accordance with relevant market practice and in good faith. This includes in particular:

- (a) the method of calculation or determination of the Additional Conditional Amount (m); this includes the application of an interpolation or an interest rate on the Securities by means of a formula on a daily interest basis;
- (b) the method for determination of the Reference Rate (including any rounding rules);
- (c) the Designated Maturity, which can be shortened or extended;
- (d) the relevant Screen Page, Reference Rate Time and/or Reference Rate Financial Centre; and/or
- (e) the business day convention according to § 6 (2) of the Special Terms and Conditions.

Such adjustments shall enable the Calculation Agent

- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice or – to the extent that the Calculation Agent determines that the application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –
- (ii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent at acting in accordance with relevant market practice and in good faith.

- (3) *Interest rate adjustment factor or spread:* In addition to an adjustment under paragraph (2), the Calculation Agent may also determine an interest rate adjustment factor or spread for the purpose of determining or calculating the Interest Rate or Interest Amount in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible.

- (4) *Notifications:* The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.

§ 10

Early redemption at the option of the Issuer

- (1) The Securities may be early redeemed at any time in whole but not in part, at the option of the Issuer, upon the occurrence of the MREL Disqualification Event, but subject to compliance with the then applicable MREL Requirements (including, without limitation, the conditions set out in § 11 (3) of the General Conditions), upon not more than 60 days' nor less than 30 days' prior notice of such early redemption, at their Optional Redemption Amount, in accordance with the MREL Requirements.

"MREL Requirements" means the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group, from time to time, (including any applicable transitional or grandfathering provisions), including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities adopted by the Federal Republic of Germany or the Republic of Italy, a relevant resolution authority or the European Banking Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time.

"MREL Disqualification Event" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

- (2) The Optional Redemption Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.
- (3) Any notice in accordance with this paragraph (3) shall be given by a notice in accordance with § 6 of the General Conditions. It shall be irrevocable, must specify the date fixed for redemption and must set forth a statement that the redemption is made in accordance with this § 10.

What are the key risks that are specific to the Issuer?

Potential investors should be aware that in the case of the occurrence of one of the below mentioned risk factors the Securities may decline in value and that they may sustain a total loss of their investment. The following risks are key risks specific to the Issuer:

Risks associated with the UniCredit Group's activities in different geographical areas: Despite the Group's business being materially connected to Italy and, therefore, to the state of its economy (Italy accounted for approximately 45% of the Group's revenues in 1Q26, computed as sum of Italy, Germany, Austria, Central & Eastern Europe and Russia) the UniCredit Group is also present in Germany (accounting for approximately 23% of the Group's revenues in 1Q26), in Austria (accounting for approximately 10% of the Group's revenues in 1Q26), in Central & Eastern Europe (accounting for approximately 19% in 1Q26 and covering Czech Republic and Slovakia, Hungary, Slovenia, Croatia, Bulgaria, Romania, Bosnia & Herzegovina and Serbia). UniCredit also has marginal activities in Russia (accounting for approximately 4% of the Group's revenues in 1Q26). The exposure to which has been reduced (including over FY25), since the start of the Ukrainian crisis. The UniCredit Group's geographical spread will also continue to expose it to risks and uncertainties of a varying nature and magnitude affecting each of the various countries in which it operates and which could be more complex in relation to countries outside the European Union. Central and Eastern European countries in particular have historically experienced volatile capital and foreign exchange markets, often coupled with political, economic and financial instability (at present potentially increased due to the Ukrainian crisis). The evolution of the geopolitical landscape remains under continuous monitoring by UniCredit, with current factors including recent and constantly evolving U.S. trade policy decisions, that could have potential implications on global trade relationships both with upsides (e.g. new trade partnerships) and downsides (e.g. impact on export/import) as possible outcomes. This area is at the early stage of evolution and potential impacts, if any, on UniCredit's primary geographies will be duly taken into account as part of the normal processes of the risk management framework. At the date of the Registration Document, the Issuer's presence in Russia exposes it to the specific risks connected to the ongoing Ukrainian crisis. Such risk exposure also requires the Issuer to constantly employ a significant amount of resources for the dynamic management of risks and ongoing assessment of the possible effects of the geopolitical crisis, while maintaining an overall prudent and sustainable approach to distributions. With regard to the assets and liabilities of Russian subsidiaries, the Group holds investments in Russia mainly through AO UniCredit Bank and its subsidiary OOO UniCredit Leasing.

The line-by-line consolidation determined the recognition of total assets for Euro 6,048 million vs. Euro 5,597 million as of 31 December 2024. The

increase in total assets is mainly attributable to the appreciation of Ruble vs Euro compared to 31 December 2024 which more than offsets the decrease in total asset in local currency.

As at December 31 2025, the revaluation reserves, whose treatment envisages the recycling through P&L in case of derecognition of the associated assets and liabilities, are equal to Euro -2,729 million mainly arising from the foreign exchange revaluation reserve resulting from the conversion of assets and liabilities of these companies in EUR; the positive delta for Euro 592 million vs. year-end 2024 (Euro -3,321 million), is mainly due the appreciation of the Russian Ruble over the period.

As of 31 December 2025, the loss of control over AO UniCredit Bank would determine the derecognition of net assets having a carrying value of Euro 6,703 million (also embedding the negative revaluation reserves), with a correspondent negative effect through P&L, in case the events leading to the derecognition would not envisage cash-in receivables; under a regulatory perspective over CET1 capital, the negative effect related to the revaluation Reserves (Euro -2,729 million) is basically neutral since it is already considered according to its nature and sign (also taking into account regulatory filters).

Credit risk and risk of credit quality deterioration: The financial and capital strength, as well as the profitability of the UniCredit Group also depend on the creditworthiness of its customers. An unexpected change in the creditworthiness of a counterparty exposes the Group to the risk of a change in the value of the associated credit exposure, requiring it to be partially or totally written down. Such credit risk is inherent in, and material to, the traditional activity of providing credit. As at March 31, 2026, the value of the UniCredit Group's non-performing exposures ("**NPEs**") was equal to Euro 11.9 billion (with a gross NPE ratio of 2.6%), stable Y/Y; the stock of NPE loan loss provisions ("**LLPs**") was equal to Euro 5.5 billion with a coverage ratio of 46%. As at March 31, 2026, the Group's net NPEs stood at Euro 6.5 billion. The UniCredit Group's CoR stood at 17 bps in the first quarter 2026 and Group's overlays on performing exposures was approximately Euro 1.7 billion. The UniCredit Group is also exposed to the non-traditional counterparty credit risk arising in the context of negotiations of derivative contracts and repurchase transactions (repos) on a wide range of products if a counterparty becomes unable to fulfil its obligations towards the UniCredit Group.

Risks associated with the exposure of the UniCredit Group to sovereign debt: The book value of sovereign debt securities exposures of the UniCredit Group as at March 31, 2026 amounted to Euro 133,266 million (Euro 132,977 million as at December 31, 2025) of which over 73% is concentrated in eight countries: Italy (Euro 46,778 million), Spain (Euro 17,160 million), France (Euro 9,164 million), Germany (Euro 8,295 million), Czech Republic (Euro 4,729 million), Austria (Euro 4,543 million), Bulgaria (Euro 3,504 million) and Romania (Euro 3,488 million). Worsening of the spread between the return on government bonds and risk-free benchmark rates, downgrading of a sovereign entity's rating might impact negatively the value of UniCredit's securities portfolio and may be detrimental to the capital position and operating results of the Issuer, although there were no indications of defaults over the course of 2026. The Group's sovereign debt exposure to Russia (Euro 479 million, as of March 31, 2026) is almost totally held by the Russian controlled bank in local currency and classified in the banking book.

In addition to the exposures to sovereign debt securities, loans given to central and local governments and governmental bodies must be taken into account, amounting to Euro 28,033 million as at March 31, 2026 (as at 31 December 2025 it amounted to Euro 28,261 million).

Liquidity risk: The UniCredit Group is and will be exposed to the possibility of being unable to meet its current and future, anticipated and unforeseen cash payment and delivery obligations without impairing its day-to-day operations or financial position. The liquidity risks specific to the activities of UniCredit concern funding/market liquidity and mismatch/contingency risks. As of March 31, 2026, the Liquidity Coverage Ratio ("**LCR**") of the UniCredit Group was equal to 141% whereas at March 31, 2025 it was equal to 143% (calculated as the average of the 12 latest end of month ratios). The LCR as of March 31, 2026 was at c. 140%. As of March 31, 2026, the Net Stable Funding Ratio ("**NSFR**") was 124% whereas at December 31, 2025 it was equal to 125%. The Loan to Deposit Ratio as of March 31, 2026 was at ca. 87%.

Risks associated with capital adequacy requirements: Following the results of the SREP 2025, capital requirements to be met by UniCredit involve a P2R at 200 bps (minimum of 1.13% as CET1 capital and 1.50% as Tier 1 capital), a leverage ratio P2R (P2R-LR) of zero and no additional liquidity requirements. As of January 1, 2026, UniCredit is required to meet: (i) OCR at 10.20% in terms of CET1 ratio, at 12.08% in terms of Tier 1 ratio and 14.58% in terms of Total Capital ratio based on the Systemic Risk Buffer and Countercyclical Capital Buffer as of March 31, 2026 which are updated on a quarterly basis, and (ii) OLRR at 3% on a consolidated basis. As of March 31, 2026, consolidated CET1 Capital, Tier 1 and Total Capital ratios were equal to, respectively: 14.19%, 16.18% and 18.79%, while the LRE was 5.17%. All in all, the outcome of the 2025 SREP as summarized by the P2R is in line with previous years' assessment, and there are no other impacts stemming from that relating to 2025. Furthermore, following the communication received by the SRB and the Bank of Italy in April 2026, UniCredit is required to comply, on a consolidated basis, with: (i) MREL requirement equal to 22.67% of RWAs – plus the applicable Combined Buffer Requirement (the "**CBR**") – and 6% for Leverage Ratio Exposures ("**LRE**"); and subordinated MREL (i.e., to be met with subordinated instruments) equal to 14.36% of RWAs plus the applicable CBR – and 6% for the LRE.

Additional definitions and product terms

Calculation Amount:	EUR 1,000.00
Final Payment Date:	29 September 2028
Minimum Amount:	EUR 1,000.00
Optional Redemption Amount:	Calculation Amount

Conversion of the Securities by the Issuer: Upon the occurrence of one or more conversion events (e.g. the administrator of the Reference Rate ceases to calculate and publish the Underlying on a permanent basis or for an indefinite period of time and a suitable replacement reference rate is available) (the "**Conversion Event**") the Issuer may convert the Securities and redeem them on the Final Payment Date by payment of the Settlement Amount. The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Early redemption at the option of the Issuer: The Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving notice to the Paying Agent and the Security Holders, if the Issuer determines that all or part of the series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements (MREL Disqualification Event).

Adjustments to the Terms and Conditions: In case of a Reference Rate Cessation Event (e.g. it becomes unlawful for the Issuer to use the Underlying) the Underlying will be replaced by an economically appropriate replacement reference rate. In addition, the Calculation Agent may, if necessary, make further adjustments to the terms and conditions of the Securities (e.g. the method of calculation or determination of the Additional Conditional Amount (m)).

Status of the Securities: The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Where will the Securities be traded?

Admission to trading: No application for the Securities to be admitted to trading on a regulated market has been made.

Listing: Application to trading will be made with effect from 6 October 2026 on the following multilateral trading facilities (MTF): EuroTLX, organized and managed by Borsa Italiana S.p.A. ("EuroTLX")

UniCredit S.p.A. (the "**Market Maker**") undertakes to provide liquidity in accordance with the market making rules of EuroTLX, where the Securities are expected to be traded. Moreover, the Market Maker undertakes to apply, in normal market conditions, a spread between bid and offer quotes not higher than 1.00%.

Additional Information on trading on Borsa Italiana

On each day the Borsa Italiana is open for business, the Market Maker undertakes to make a firm bid of not less than 100% of the Calculation Amount of the Securities for the requested amount of the Securities. In the event of an unavailability of the quotation of the Securities on the MTF and notwithstanding any Reference Rate Cessation Event or Reference Rate Conversation Event, the Market Maker offers to repurchase the Securities at a price of not less than 100% of the Calculation Amount for the number of Securities concerned (i) on the first Business Day of the MTF on which the quotation of the Securities becomes available, (ii) in accordance with the instructions from the MTF or (iii) over the counter (OTC).

What are the key risks that are specific to the Securities?

Credit risk of the Issuer and risks in relation to resolution measures in relation to the Issuer: The Securities constitute unsecured obligations of the Issuer vis-a-vis the Security Holders. Any person who purchases the Securities therefore relies on the creditworthiness of the Issuer and has, in relation to his/her position under the Securities, no rights or claims against any other person. Security Holders are subject to the risk of a partial or total failure of the Issuer to fulfil obligations which the Issuer is liable to perform under the Securities in whole or in part, for example, in the event of the Issuer's insolvency. The worse the creditworthiness of the Issuer is the higher is the risk of a loss. In the case of realization of the credit risk of the Issuer the Security Holder may sustain a total loss of his/her capital, even if the Securities provide for a Minimum Amount at their maturity. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail. The obligations of the Issuer under the Securities are not secured, guaranteed by third parties or protected by any deposit protection or compensation scheme.

Risks related to market value-influencing factors: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to sell the Securities at a specific time or for a specific price. The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying. However, the market value of the Securities will be affected by a number of additional factors. These are inter alia the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

Risks related to the Redemption Amount: The Securities will be redeemed at their maturity at the Redemption Amount. The Redemption Amount may be less than the purchase price. This means, the Security Holder only achieves a return if the Redemption Amount exceeds the individual purchase price of the Security Holder.

Risks arising from missing ongoing payments: Any Additional Conditional Amount (m) will only be payable if an Additional Conditional Amount Payment Event (m) occurs with respect to an Additional Conditional Amount Observation Date (m). If an Additional Conditional Amount Payment Event (m) does not occur, the Security Holder is not entitled to receive the respective Additional Conditional Amount (m). There is the risk, that in case of an unfavourable performance of the Underlying no payment of any Additional Conditional Amount (m) may occur.

Risks related to the regulation of benchmarks: The Securities make reference to a Benchmark (the "**Benchmark**") within the meaning of Regulation (EU) 2016/1011 (the "**Benchmark Regulation**") and therefore there is a risk that the Benchmark may not be used as reference value of the Securities from a certain point in time. In such event, the Securities could be de-listed, adjusted, converted or otherwise impacted. Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities.

Risks related to reference rates: Reference rates may be subject to significant fluctuations due to multiple factors such as changes in market interest rates, measures taken by central banks, fiscal interventions, as well as macro-economic or political influences. The publication of reference rates may be discontinued, in particular due to regulatory requirements. Changes, errors or manipulation in the calculation of a reference rate may have a material adverse effect for the Security Holder.

Risks related to potential conflicts of interests: Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage.

Quali sono i principali rischi specifici dell’Emittente?

I potenziali investitori devono essere consapevoli che, qualora si verifichi uno dei seguenti fattori di rischio, il valore degli Strumenti Finanziari potrebbe ridursi con la conseguente perdita totale del capitale investito. I seguenti rischi sono i principali rischi specifici dell’Emittente:

Rischi connessi alle attività del Gruppo UniCredit in diverse aree geografiche: Nonostante il business del Gruppo sia sostanzialmente legato all'Italia e, quindi, allo stato della sua economia (l'Italia rappresenta circa il 45% dei ricavi del Gruppo nel 1Q26, calcolati come somma di Italia, Germania, Austria, Europa Centrale ed Orientale e Russia), il Gruppo UniCredit è presente anche in Germania (che rappresenta circa il 23% dei ricavi del Gruppo nel 1Q26), in Austria (con una quota di circa il 10% dei ricavi del Gruppo nel 1Q26), in Europa centrale ed orientale (con una quota di circa il 19% nel 1Q26 e comprendente Repubblica Ceca e Slovacchia, Ungheria, Slovenia, Croazia, Bulgaria, Romania, Bosnia-Erzegovina e Serbia). UniCredit ha anche attività marginali in Russia (circa il 4% dei ricavi del Gruppo nel 1Q26). L'esposizione è stata ridotta (anche nel corso del 2025) dall'inizio della crisi ucraina. La diffusione geografica del Gruppo UniCredit continuerà inoltre a esporlo a rischi e incertezze di varia natura e portata che interessano ciascuno dei vari paesi in cui opera e che potrebbero essere più complessi in relazione ai paesi al di fuori dell'Unione Europea. I paesi dell'Europa centrale e orientale, in particolare, hanno storicamente sperimentato mercati dei capitali e dei cambi volatili, spesso associati a instabilità politica, economica e finanziaria (attualmente potenzialmente aumentata a causa della crisi ucraina). L'evoluzione del panorama geopolitico è costantemente monitorata da UniCredit, con fattori attuali che includono le recenti decisioni in continua evoluzione della politica commerciale statunitense, che potrebbero avere potenziali implicazioni sulle relazioni commerciali globali sia con aspetti positivi (ad esempio, nuove partnership commerciali) che negativi (ad esempio, impatto su esportazioni/importazioni) come possibili risultati. Quest'area è nella fase iniziale di evoluzione e i potenziali impatti, se ve ne sono, sulle principali aree geografiche di UniCredit saranno debitamente presi in considerazione nell'ambito dei normali processi del framework relativo alla gestione del rischio. Alla data del Documento di Registrazione, la presenza dell'Emittente in Russia lo espone ai rischi specifici connessi alla crisi ucraina in corso. Tale

esposizione al rischio richiede inoltre che l'Emittente impieghi costantemente una quantità significativa di risorse per la gestione dinamica dei rischi e la valutazione continua dei possibili effetti della crisi geopolitica, mantenendo un approccio complessivamente prudente e sostenibile alle distribuzioni. Con riferimento alle attività e alle passività delle controllate russe, Il Gruppo detiene partecipazioni in Russia principalmente attraverso AO UniCredit Bank e la sua controllata OOO UniCredit Leasing.

Il consolidamento integrale ha determinato la rilevazione di un totale attivo per Euro 6.048 milioni rispetto a Euro 5.597 milioni al 31 dicembre 2024. L'incremento del totale attivo è principalmente attribuibile all'apprezzamento del Rublo sull'Euro rispetto al 31 dicembre 2024, il quale più che compensa la riduzione del totale attivo in valuta locale.

Al 31 dicembre 2025, le riserve di valutazione, il cui trattamento prevede il rigiro a Conto economico, in caso di cancellazione contabile delle relative attività e passività, sono pari a Euro -2.729 milioni derivanti principalmente dalla riserva oscillazione cambi risultante dalla conversione di attività e passività di queste società in euro; la variazione positiva per Euro 592 milioni rispetto a fine anno 2024 (Euro -3.321 milioni) è principalmente dovuta all'apprezzamento del rublo russo durante il periodo.

Al 31 dicembre 2025 la perdita di controllo su AO UniCredit Bank determinerebbe la cancellazione contabile di patrimonio netto avente un valore di bilancio pari a Euro 6.703 milioni (che include anche le riserve di valutazione negative), con conseguente impatto negativo di Conto economico, nel caso in cui gli eventi che determinano la *derecognition* non prevedano il pagamento di un prezzo; da un punto di vista regolamentare l'impatto negativo sul CET1 relativo alla riserva di valutazione (Euro -2.729 milioni) è sostanzialmente neutrale in quanto è già considerato in base alla sua natura e al suo segno (anche tenendo in considerazione i filtri regolamentari).

Rischio di credito e rischio di deterioramento della qualità del credito: La solidità finanziaria e patrimoniale, nonché la redditività del Gruppo UniCredit dipendono anche dall'affidabilità creditizia dei propri clienti. Un cambiamento inatteso nell'affidabilità creditizia di una controparte espone il Gruppo al rischio di una variazione del valore dell'esposizione creditizia associata, che richiede una svalutazione parziale o totale. Tale rischio di credito è intrinseco e rilevante per l'attività tradizionale di erogazione del credito. Al 31 marzo 2026, il valore delle esposizioni non performing ("**NPE**") del Gruppo UniCredit era pari a 11,9 miliardi di euro (con un NPE ratio lordo del 2,6%), stabile A/A; lo stock di accantonamenti per perdite su crediti ("**LLPs**") su esposizioni non performing era pari a 5,5 miliardi di euro con un coverage ratio del 46%. Al 31 marzo 2026, le esposizioni non performing nette del Gruppo erano pari a 6,5 miliardi di euro. Il CoR del Gruppo UniCredit si è attestato a 17 punti base nel primo trimestre 2026 e gli overlay sulle esposizioni performing di Gruppo ammontavano a circa 1,7 miliardi di euro. Il Gruppo UniCredit è inoltre esposto al rischio di credito di controparte non tradizionale derivante dalla negoziazione di contratti derivati e di operazioni di riacquisto (pronti contro termine) su un'ampia gamma di prodotti, nel caso in cui una controparte non sia in grado di adempiere ai propri obblighi nei confronti del Gruppo UniCredit.

Rischi connessi all'esposizione del Gruppo UniCredit al debito sovrano: Il valore contabile delle esposizioni in titoli di debito sovrano del Gruppo UniCredit al 31 marzo 2026 ammontava a 133.266 milioni di euro (132.977 milioni di euro al 31 dicembre 2025), di cui oltre il 73% è concentrato in otto paesi: Italia (46.778 milioni di euro), Spagna (17.160 milioni di euro), Francia (9.164 milioni di euro), Germania (8.295 milioni di euro), Repubblica Ceca (4.729 milioni di euro), Austria (4.543 milioni di euro), Bulgaria (3.504 milioni di euro) e Romania (3.488 milioni di euro). Il peggioramento dello spread tra il rendimento dei titoli di Stato e i tassi di riferimento privi di rischio, il declassamento del rating di un'entità sovrana potrebbero influire negativamente sul valore del portafoglio titoli di UniCredit e potrebbero avere un impatto negativo sulla posizione patrimoniale e sui risultati operativi dell'Emittente, sebbene nel corso del 2026 non vi siano state indicazioni di casi di inadempienza. L'esposizione del Gruppo al debito sovrano della Russia (479 milioni di euro al 31 marzo 2026) è quasi interamente detenuta dalla banca controllata russa in valuta locale e classificata nel portafoglio bancario. Alle esposizioni Sovrane in titoli di debito vanno altresì aggiunti i finanziamenti erogati a governi centrali e locali e agli enti governativi, pari a 28.033 milioni di euro al 31 marzo 2026 (28.261 milioni di euro al 31 dicembre 2025).

Rischio di liquidità: Il Gruppo UniCredit è e sarà esposto alla possibilità di non essere in grado di far fronte ai suoi obblighi di pagamento e consegna in contanti attuali e futuri, previsti e imprevisi, senza compromettere le sue operazioni quotidiane o la sua posizione finanziaria. I rischi di liquidità specifici delle attività di UniCredit riguardano la liquidità di finanziamento/mercato e i rischi di disallineamento/contingenza. Al 31 marzo 2026, il Liquidity Coverage Ratio ("**LCR**") del Gruppo UniCredit era pari al 141%, mentre al 31 marzo 2025 era pari al 143% (calcolato come media dei 12 ultimi rapporti di fine mese). Il valore del LCR al 31 marzo 2026 era circa 140%. Al 31 marzo 2026, il Net Stable Funding Ratio ("**NSFR**") era 124% mentre al 31 dicembre 2025 era pari al 125%. Il Loan to Deposit Ratio al 31 marzo 2026 era circa 87%.

Rischi connessi all'adeguatezza patrimoniale: In base ai risultati dello SREP 2025, i requisiti patrimoniali che UniCredit deve soddisfare prevedono un P2R a 200 bps (minimo dell'1,13% come capitale CET1 e dell'1,50% come capitale Tier 1), un coefficiente P2R di leva finanziaria (P2R-LR) pari a zero e nessun requisito di liquidità aggiuntivo. Al 1° gennaio 2026, UniCredit è tenuta a rispettare: (i) OCR al 10,20% in termini di coefficiente CET1, al 12,08% in termini di coefficiente Tier 1 e al 14,58% in termini di coefficiente di capitale totale sulla base della riserva di rischio sistemico e della riserva di capitale anticiclica al 31 marzo 2026, che vengono aggiornate su base trimestrale, e (ii) OLRR al 3% su base consolidata. Al 31 marzo 2026, i coefficienti consolidati di CET1, Tier 1 e capitale totale erano pari, rispettivamente, a: 14,19%, 16,18% e 18,79%, mentre l'LRE era pari al 5,17%. Nel complesso, il risultato dello SREP 2025, come sintetizzato dal P2R, è in linea con la valutazione degli anni precedenti e non vi sono altri impatti derivanti da quello relativo al 2025. Inoltre, a seguito della comunicazione ricevuta dal SRB e dalla Banca d'Italia nell'aprile 2026, UniCredit è tenuta a rispettare, su base consolidata, i seguenti requisiti: (i) un requisito MREL pari al 22,67% delle RWAs – più il Requisito Combinato di Riserva (Combined Buffer Requirement, "**CBR**") applicabile – e al 6% delle esposizioni per il coefficiente di leva finanziaria (Leverage Ratio Exposure, "**LRE**"); nonché un requisito MREL subordinato (cioè da soddisfare con strumenti subordinati) pari al 14,36% delle RWA più il CBR applicabile – e al 6% delle LRE.

Sezione 3 – Informazioni fondamentali sui Titoli

Quali sono le principali caratteristiche dei Titoli?

Compensazione. Il codice internazionale di identificazione dei Titoli (*International Securities Identification Number* - ISIN) è indicato nella Sezione 1.

Emissione e Durata

I Titoli saranno emessi il 29/09/2026 in Euro (EUR) (la "Valuta Specifica") fino a 100.000 Certificati. I Titoli hanno una durata definita.

Generale

Il valore dei Titoli durante la loro vita dipende principalmente dal prezzo del Sottostante. In linea di principio, il valore dei Titoli sale se il prezzo del Sottostante sale e scende se il prezzo del Sottostante scende.

Interessi

I Titoli non maturano interessi.

Definizioni aggiuntive e termini del prodotto

Base di Calcolo:	EUR 1.000
Data di Pagamento Finale:	29/09/2028
Importo Minimo:	EUR 1.000
Importo di Rimborso Opzionale:	Base di Calcolo

Conversione dei Titoli da parte dell'Emittente: Al verificarsi di uno o più eventi di conversione (ad es. l'amministratore del Tasso di Riferimento smette di calcolare e pubblicare il Sottostante in modo permanente o per un periodo di tempo indeterminato e non è disponibile un tasso di riferimento sostitutivo) (l'"Evento di Conversione") l'Emittente può convertire i Titoli e rimborsarli alla Data di Pagamento Finale mediante il pagamento dell'Importo di Regolamento. L'"Importo di Regolamento" è pari al valore di mercato dei Titoli, maggiorato degli interessi maturati per il periodo che va fino alla Data di Pagamento Finale al tasso di mercato a cui sono negoziate in tale momento le passività dell'Emittente con la stessa durata residua dei Titoli, entro il decimo Giorno Lavorativo successivo al verificarsi dell'Evento di Conversione, come determinato dall'Agente di Calcolo. L'Importo di Regolamento in ogni caso non potrà essere inferiore all'Importo Minimo.

Rimborso Anticipato a discrezione dell'Emittente: I Titoli possono essere rimborsati in qualsiasi momento in tutto ma non in parte, a discrezione dell'Emittente al loro Importo di Rimborso Opzionale alla data specificata in un avviso pubblicato sul sito dell'Emittente, previa comunicazione all'Agente di Pagamento e ai Titolari dei Titoli, se l'Emittente determina che tutto o parte della serie dei Titoli è o sarà escluso in tutto o in parte dalle passività ammissibili disponibili per soddisfare i Requisiti MREL (Evento di Inammissibilità MREL).

Rettifiche dei Termini e delle Condizioni dei Titoli: Nell'ipotesi di un Evento di Cessazione del Tasso di Riferimento (ad es. diventa illecito per

l'Emittente utilizzare il Sottostante) il Sottostante sarà sostituito da un tasso di riferimento sostitutivo economicamente adeguato. Inoltre, l'agente di calcolo può, se necessario, apportare ulteriori rettifiche ai termini e alle condizioni dei Titoli (ad es. il metodo di calcolo o la determinazione dell'Importo Condizionato Aggiuntivo (m)).

Stato dei Titoli: Gli obblighi dell'Emittente derivanti dai Titoli costituiscono obbligazioni dirette, incondizionate, non subordinate e non garantite dell'Emittente, avranno pari priorità nell'ordine dei pagamenti (fatte salve le obbligazioni privilegiate da qualsiasi legge applicabile (anche soggette allo strumento del bail-in, come implementato ai sensi della legge italiana)) rispetto a tutte le altre obbligazioni non garantite dell'Emittente e ad ogni altro obbligo presente e futuro, non garantito e non subordinato, dell'Emittente (salvo, quando previsto, le obbligazioni junior rispetto alle obbligazioni senior (incluse le obbligazioni senior non privilegiate e le eventuali ulteriori obbligazioni junior, rispetto a obbligazioni senior, consentite dalla legge successivamente alla Data di Emissione), ove previste).

Dove saranno negoziati i Titoli?

Ammissione alla negoziazione: Non è stata presentata l'istanza per l'ammissione a negoziazione dei Titoli presso un mercato regolamentato.

Quotazione: Sarà presentata istanza per l'ammissione a quotazione dei Titoli con efficacia dal 06/10/2026, presso i seguenti sistemi multilaterali di negoziazione (MTF): EuroTLX, organizzato e gestito da Borsa Italiana S.p.A. ("**EuroTLX**")

UniCredit S.p.A. (il "**Market Maker**") si impegna a fornire liquidità in conformità alle norme sul *market making* di EuroTLX, dove ci si attende che i Titoli saranno negoziati. Inoltre, il Market Maker si impegna ad applicare, in condizioni normali di mercato, uno spread tra le quotazioni denaro e lettera non superiore all'1%.

Informazioni aggiuntive in merito alla negoziazione su Borsa Italiana:

Ogni giorno in cui Borsa Italiana è aperta al pubblico, il Market Maker si impegna a offrire un prezzo irrevocabile di acquisto non inferiore al 100% della Base di Calcolo dei Titoli per l'importo richiesto. In caso di indisponibilità della quotazione dei Titoli sull'MTF e di qualsiasi Evento di Cessazione del Tasso di Riferimento o Evento di Conversione del Tasso di Riferimento, il Market Maker si offre di riacquistare i Titoli a un prezzo non inferiore al 100% della Base di Calcolo per il numero di Titoli interessati (i) il primo Giorno Lavorativo dell'MTF in cui la quotazione dei Titoli diventa disponibile, (ii) in conformità alle istruzioni dell'MTF o (iii) over the counter (OTC).

Quali sono i principali rischi specifici dei Titoli?

Rischio di Credito dell'Emittente e rischi relativi alle misure di risoluzione che riguardano l'Emittente: I Titoli costituiscono obbligazioni non garantite dell'Emittente nei confronti dei Titolari. Pertanto, chiunque li acquisti è soggetto al merito creditizio dell'Emittente e non ha, in relazione alla propria posizione nell'ambito dei Titoli, alcun diritto o pretesa nei confronti di qualsiasi altra persona. I Titolari sono sottoposti al rischio di una parziale o totale inadempienza dell'Emittente per gli obblighi che il medesimo è tenuto ad adempiere in tutto o in parte ai sensi dei Titoli, ad esempio in caso di insolvenza. Peggiora la solvibilità dell'Emittente, maggiore è il rischio di perdita. Qualora il rischio di credito dell'Emittente si realizzi, il Titolare può subire una perdita totale del proprio capitale, anche se i Titoli prevedono un Importo Minimo alla loro scadenza. Inoltre, i Titolari possono essere soggetti a misure di risoluzione nei confronti dell'Emittente qualora il medesimo è in fallimento o a rischio di fallimento. Gli obblighi dell'Emittente ai sensi dei Titoli non sono garantiti, garantiti da terzi o protetti da un sistema di protezione dei depositi o di compensazione.

Rischi correlati a fattori che influenzano il valore di mercato: I Portatori dei Titoli sono esposti al rischio di forti fluttuazioni del prezzo di mercato dei Titoli nel corso della loro durata nonché al rischio di non poter vendere i Titoli in un determinato momento o ad un determinato prezzo. Tanto il valore di mercato quanto gli importi pagabili ai sensi dei Titoli dipendono principalmente dal prezzo del Sottostante. Peraltro, il valore di mercato dei Titoli sarà condizionato da una serie di ulteriori fattori. Questi sono, inter alia, il merito creditizio dell'Emittente, i relativi tassi di interesse e di rendimento prevalenti, il mercato per titoli simili, le condizioni economiche generali, politiche e cicliche, la negoziabilità e, se del caso, la durata residua dei Titoli nonché ulteriori fattori relativi al Sottostante che influenzano il valore di mercato.

Rischi correlati all'Importo di Rimborso: I Titoli saranno rimborsati alla loro scadenza all'Importo di Rimborso. L'Importo di Rimborso potrebbe essere inferiore al prezzo di acquisto. Ciò significa che il Titolare otterrà un rendimento solo se l'Importo di Rimborso sia superiore allo specifico prezzo di acquisto pagato dal Titolare.

Rischi derivanti dal mancato pagamento di importi nel corso della durata dei Titoli: Qualsiasi Importo Condizionato Aggiuntivo (m) sarà pagabile solo se si verifica un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) in una Data di Osservazione dell'Importo Condizionato Aggiuntivo (m). Se un Evento di Pagamento dell'Importo Condizionato Aggiuntivo (m) non si verifica, il Titolare non ha diritto a ricevere il rispettivo Importo Condizionato Aggiuntivo (m). Vi è il rischio che in caso di andamento sfavorevole del Sottostante non si verifichi il pagamento di alcun Importo Condizionato Aggiuntivo (m).

Rischi legati alla disciplina degli indici di riferimento: I Titoli fanno riferimento a un Indice di Riferimento (*Benchmark*) (l' "**Indice di Riferimento**") come definito ai sensi del Regolamento (UE) 2016/1011 (il "**Regolamento Benchmark**") e pertanto sussiste il rischio che, a partire da una determinata data, l'Indice di Riferimento non possa più essere utilizzato come parametro di riferimento dei Titoli. In tal caso, i Titoli potrebbero essere rimossi dalla quotazione, rettificati, convertiti o comunque influenzati. Qualsiasi modifica ad un Indice di Riferimento derivante dal Regolamento Benchmark potrebbe determinare un sostanziale effetto negativo sui costi di rifinanziamento di un Indice di Riferimento o sui costi e rischi di amministrazione o comunque di partecipazione alla definizione di un Indice di Riferimento e di adempimento del Regolamento Benchmark. I potenziali investitori dovrebbero considerare il rischio che eventuali modifiche al relativo Indice di Riferimento potrebbero avere un sostanziale effetto negativo sul valore e sugli importi dovuti ai sensi dei Titoli.

Rischi legati ai tassi di riferimento: I tassi di riferimento possono essere soggetti a fluttuazioni significative a causa di molteplici fattori quali le variazioni dei tassi di interesse di mercato, le misure adottate dalle banche centrali, gli interventi fiscali, nonché a influenze macroeconomiche o politiche. La pubblicazione dei tassi di riferimento può essere interrotta, in particolare a causa di requisiti regolamentari. Modifiche, errori o manipolazioni nel calcolo di un tasso di riferimento possono avere un effetto negativo rilevante per il Titolare.

Rischi legati a potenziali conflitti di interesse: Possono insorgere conflitti di interesse relativi all'Emittente o ai soggetti incaricati dell'offerta che possono determinare decisioni svantaggiose per i Titolari dei Titoli.
